I am currently in this meeting and I completely agree with the want to add electric bikes to this ordinance.
I have two questions about this topic:
Has adding electronic scooters, soemthing that has become so popular in cities, come up in discussion? As another form of public transportation similar to Bubblr bikes.
I also am wondering if this is only focusing on cars, or if electric motorcycles have also been considered? As these types of bicycles are up and coming.

Thank you, Martha Daniels.
