Dear leaders of the City of Madison:

As a concerned good neighbor eager to support and encourage sustainable infrastructure that helps address the climate crisis I write to ask you to support, and when appropriate, vote in favor of the electric vehicle (EV) readiness ordinance (Legistar # 61929) that will soon appear on the Common Council agenda. I believe that preparing for the transition to EVs is another way Madison can be a leading example for communities around the state.

Most major auto manufacturers have plans to launch even more electric vehicles over the next five years. The question is not if, but when, EVs will replace gasoline-powered vehicles. With the passage of this ordinance, the City of Madison will help our community adapt to EVs, reduce our transportation emissions, and better meet our carbon reduction goals.

Without this EV-readiness ordinance, which is common in progressive communities around the country, Madison will be caught flat-footed with outdated infrastructure. I urge you to support this ordinance so that we can reduce vehicle emissions and build a better, more sustainable Madison.

I am a supporter of 350 Madison's Community Climate Solutions Team.

Thank you,

Kermit M. Hovey, Jr.
