City of Madison Leaders,

I'm writing to request that you support the upcoming electric vehicle readiness ordinance that will be coming up before the Common Council.

With the announcement that California plans to phase out sales of gas-powered cars over the next 15 years, the trend towards electric vehicles seems likely to accelerate dramatically. The electric vehicle readiness ordinance would allow Madison to be a leader in climate change preparations, and allow Madison residents to more seamlessly transition to a lower carbon form of transportation.

Thank you,

Kate Sandretto
