Subject:	Upcoming Fluoridation meeting
Date:	Wednesday, October 22, 2014 2:50:48 PM

Salutations,

I am a resident of the City of Madison, but will be unable to attend the upcoming meeting on Fluoridation in the City this coming Tuesday, due to a new job starting for myself.

I thought it important, given the likely voices that might be raised at such a meeting, that you hear from someone in the community who is WHOLE HARDILY for the continued use of Fluoride in our city. It's health benefits for our youth has been proven time and time again by neutral scientists.

Please do continue as we have done.

Thank you in advance,
Allen Ellis DeWitt
