Dear Ms. Reece:

As a leader in our community, I ask you to support the electric vehicle (EV) readiness ordinance (Legistar # 61929) when it comes to the attention of the Common Council. Preparing for the transition to EVs is another way Madison can be a leading example for communities around the state and assist in reducing carbon emissions.

Most major auto manufacturers have plans to launch electric vehicles over the next five years. In the near future, EVs will replace gasoline-powered vehicles. Passage of this ordinance by the Common Council, will help ready our community for EVs, reduce our transportation emissions, and better meet our carbon reduction goals. I urge you to support this ordinance to build a better, more sustainable Madison.

I am a supporter of 350 Madison's Community Climate SolutionsTeam.

Thank you,

Peggy Rosin
