To Whom it May Concern:

I live at 1902 Londonderry Dr. and I don't like the idea of a tall building taking over our view from our Apartment building its all we have sometimes, looking out the window & watching traffic Plus there would be more Rowdy renters and people hanging around, We have enough of that already. I know I'm only one person out of this building who might say or do anything so thank you for listening & giving me a call back from Tom Parks- Thanks for reading my letter I'd be there, but I'm going to the Hospital. so thank you Mr Parks for making me feel important.
