

PSRC Priorities

What is missing?

A suggestion on the priority item list is to look at the items and answer the following questions – (Is there a problem? What is it? What are the causes of the problem? Can we contribute to solving the problem? What are the solutions that Madison or other cities around the country could use to reduce the problem? Which ones do we recommend?)

What measures can the PSRC take to influence public policy (i.e. develop city ordinances, city council, etc.)
