Dear City of Madison Transportation Commission,

How are you today?

I am a resident of Sheboygan ave.

I think it is very unscientific to eliminate on-street parking. These are some of my points.

1. Traffic on Sheboygan streets is light and street parking does not cause accidents. Street parking makes very good use of the wide road.

2. The role of the transportation department is to provide a more convenient life for residents.

If street parking is eliminated, it will not only affect the lives of Sheboygan residents, but also service industry activities such as Uber, moving companies, etc.

Best,

Yifei Li
