Subject: 935 W. Johnson Street - Rezoning/Demolition Notification - UW-Madison
Attachments: 935 W Johnson-ex.JPG

Avra,

I'm emailing as a requirement of our Land Use Application related to a Zoning Map Amendment and Demolition Permit for 935 W. Johnson Street (image attached). UW-Madison met with Zoning and Planning staff this morning as part of our 'Pre-Application' meeting per the Land Use Application. We intend to move forward with a Zoning Map Amendment (rezoning from TR-U2 to C-I District) as well as a Demolition Permit.

We are also in correspondence with, or will be reaching out to the following entities:

- Heather Bailey to confirm the building is not historic in her database and to understand any Landmarks concerns.
- Joint Campus Area Committee – We will have this item on their September 11, 2019 agenda.
- South Campus Property Owners Association – this is the technical name for the neighborhood association in which the parcel lies. Although this Association is currently 'not-active' we've notified their contact person in the past and intent to do the same for this project. I will cc you on that email.
- The Greater State Street Business Association – per the application form. I will cc you on that email.

The zoning map amendment is to rezone 935 W. Johnson Street from TR-U2 to C-I District and amending a number of pages in the UW-Madison approved Campus Master Plan (January 1, 2019) that effect/regulate the identified property. This property is not specifically mentioned by address in the C-I District Master Plan since the Board of Regents (University of Wisconsin) did not own the parcel at the time of the Campus Master Plan approval process. However, page 192 - Proposed Building Removals from 2017-2027 indicates the entire block south of Grainger Hall, of which 935 W. Johnson street is part of, being proposed for removal. The long term planning for this block includes the development of an academic building with associated underground parking and open space. 935 W. Johnson Street is part of an assemblage of parcels for future development. The interim condition will be seeded lawn until all lands can be acquired.

Please acknowledge receipt of this email and if you have any comments or questions.

Sally,

Welcome to the Alder District #8 position! Gary, my director (cc'd on this email), and myself will see you at the Joint Campus Area Committee meetings (next one is December 11). We'll formally introduce ourselves at that point. I was going through some past emails and wanted to forward this along to you as I'm preparing to submit these materials to the city soon.

Back in August we had emailed Avra about a property located at 935 W. Johnson Street. As part of the submittal I'm just wanting to ensure all stakeholders are notified properly...and knowing the transition that has occurred mid-session in the District #8 seat I thought I'd reach out to you as well.

Please acknowledge receipt of this email and if you have any comments or questions.
Thank you,

Subject: Re: South Campus Property Owners Association - 935 W. Johnson Street property

It will be graded and seeded with lawn. We are in the process of putting a project together for the north side of that block along W. Johnson St. It's a couple years out, but that is what the Master Plan is recommending.

I'm sure you're in touch with our real estate folks if you have property on that block. I'll keep you in the loop to the best of my ability.

Feel free to reach out at any times with questions.

Thank you,

-aaron williams

Thank you Aaron. I do like to know what is going on in the area. Definitely looks like a candidate for demolition. The property ownership numbers in this area have dwindled, but I still own several properties there and have contact with some other owners and managers. What will be done with the property once the building is demolished?
Betty

I know I've spoken with you on other topics Betty, and I've been told the South Campus Property Owners Association is currently not active, but I wanted to give you a head's up about this proposed rezone and demolition. The subject will also go before the Joint Campus Area Committee at their September or October meeting, which is technically our 'neighborhood' liaison meeting. We will be requesting their support prior to submitting the appropriate application to the city.

Please acknowledge receipt of this email and let me know if you have any comments or questions.

Thank you,

AMENDMENT #1 - ZONING MAP AMENDMENT - 935 W. JOHNSON STREET

Statement: Acquisition and conversion of land parcel located at 935 W. Johnson Street from Traditional Residential Urban 2 (TR-U2) to Campus-Institutional (C-I) District. Parcel is located with the Board of Regents of the University of Wisconsin System Campus Development Plan Boundary.

Alterations per page include:

Page 9 Figure iii	Revise parcel color in University of Wisconsin Campus-Institutional Zoning Map exhibit.
Page 71 Figure 3-3	Revise parcel color in Campus-Institutional Zoning Map exhibit.
Page 115 Figure 4-3	Revise parcel color in Enlargement Zoning Overlay and Proposed Buildings exhibit.

Page 175 Figure 5-1	Revise the Proposed Facility Removal exhibit.
Page 190 Figure 5-9	Revise the All Phases Proposed Facility Removal exhibit.
Appendix E	Revise C-I District Zoning & Campus Development Plan Boundary exhibit.

AMENDMENT #1 - Approved XX/XX/XX

L A K E
M E N D O T A

Enlargement Area Shown Above

Master Plan + Zoning Overlay Enlargement

The enlargement graphic below identifies the area of campus south of University Avenue where a number of non-university owned parcels exist within the Campus Development Plan Boundary. The 'white' boxes indicate the proposed future buildings across campus and how they overlap with the existing zoning. The C-I District that is subject to the master plan is indicated by the blue parcels. Other parcels are indicated for reference only. The C-I District master plan only applies to the blue parcels. Non-blue parcels must first be rezoned in to the C-I zoning district and the use of those parcels added to the Master Plan through the amendment process in the City's Zoning Code.

Redevelopment of sites comprised of more than one platted lot will require a land division approved by the City of Madison to dissolve underlying lot lines.

5.1 Project Phasing

In order for a master plan to be successful, it must be appropriately phased and implemented over time. To assist with this process, the following initial draft phasing breakdown has been developed. Note that the proposed project opportunities listed are not a definitive comprehensive list of projects in any priority order and in no way suggests that these projects will be approved as part of the standard capital budget process with the State of Wisconsin. Each project will need to be reviewed and prioritized within the context of the 6-year capital plan and within a 2-year biennial capital budget. Projects are strictly initiated first by programmatic need and second by funding availability. Some projects may move between phases as funding becomes available. Some may move more quickly and others may move more slowly.

Tables 5-1 through 5-4 list building projects. See the following supporting master plans for descriptions of other recommended projects:

- Landscape Master Plan
- Green Infrastructure & Stormwater Management Master Plan
- Long Range Transportation Plan
- Utility Master Plan

Parking structures (above and below ground) are not included in building space subtotals.

As a component of the City of Madison Campus Institutional District zoning approval process, two exhibits have been provided at the end of this section denoting buildings which are anticipated for removal and addition within the 10-year life of this master plan. These two exhibits are our current best guess in terms of development and may adjust based on school/department/division program need, funding, and land acquisition.

Per MGO 48025 Section 28.185, demolition of buildings identified in the approved C-I District master plan shall be exempt from Plan Commission approval and the need to seek demolition approvals for those identified buildings. However, projects that involve historic buildings and/or structures, even if they are not landmarks, must be reviewed by the Wisconsin Historical Society (WHS).
