Department of Transportation

Thomas Lynch, PE, PTOE, PTP, AICP, Director of Transportation

Madison Municipal Building 215 Martin Luther King Jr Blvd Suite 109 P.O. Box 2986 Madison, Wisconsin 53701-2986

Phone: (608) 266-4761 Fax: (608) 267-1158

Director's Report – May 3, 2021

In a recent meeting with TPPB leadership, there was a suggestion that the Director provide a report that summarizes the issues and efforts of the Transportation Department over the past month. This is the first effort at this – I hope you find it informing.

Sincerely,

Thomas W. Lynch, PE, PTOE, PTP, AICP

Director of Transportation City of Madison

Transit

- BRT Met with WisDOT, Shorewood Hills, and UW Madison regarding developing 3rd party agreements for the BRT a prerequisite to obtain a Small Starts construction agreement from the FTA. WisDOT has expressed concerns regarding BRT use of East Washington Ave on traffic operations. We are working through those concerns.
- BRT We have received an updated construction cost estimate which we will be using to develop the Capital Budget request. We have also initiated the very beginnings of the BRT environmental process.
- BRT Sun Prairie's council voted to participate in "BRT light" where they receive BRT service every 30 minutes.
- BRT Interviewed several candidates for BRT Program Manager who will help Madison manage the \$160 million investment over the next several years.
- Amtrak we have met with both US DOT and Amtrak officials regarding providing Amtrak service to Madison, and of possible station locations within the Madison area. Amtrak service to Madison is largely dependent on passage several portions of the American Jobs Plan – which has funding for passenger rail.
- Transit Network Redesign mostly information gathering and public engagement. Internal workshops begin in early May to develop alternatives.
- State Street Transportation Staff interacted with downtown businesses and the Transportation Commission in discussing temporary use of State Street for business activities. The BID has since paused their request to use the street portion of State Street on summer weekends.

Transportation Demand Management

• In conjunction with SSTI and the attorney's office, we have a draft Transportation Demand Management Program that will be presented to the joint Planning Commission/Transportation Planning and Policy Board on May 13. The past and coming week, we are meeting with developers to garner input and comments on the program.

Parking Enforcement

On April 20 the Common Council voted to move Parking Enforcement operations from MPD to the Parking Division. We have been reviewing facility and equipment needs in preparation for the capital and operation budgets. We have also met with Milwaukee Parking Enforcement, which navigated this same transition several years ago and had similar concerns expressed during council testimony. The transition team is being formed and will include broad representation. An initial meeting with enforcement staff will held the first week of May to discuss communication goals and transition team representation before finalizing the team composition and a communication plan.

Federal Monies

- The appropriations act, along with the reenactment of the FAST act, allows congressional representatives to provide community project funding recommendations (earmarks).
 Representative Pocan's office requested "ready" candidates that are eligible for federal funding.
 The information request required a 1-week turnaround and included projects the TPPB has reviewed as part of Madison's TIP. Representative Pocan and his staff evaluated our submittals and will recommend the Atwood Avenue project in the FAST Act appropriations request.
- US DOT released a Notice of Funding Opportunity for the RAISE grant (formerly called BUILD grants).
 Only 6% of applicants get funded. We met with City lobbyist to see which candidates have the greatest potential for success.
- Traffic Engineering applied for and received a federal grant to make safety improvements at the Gammon-Watts intersection through the Highway Safety Improvement Program (HSIP). The proposed project is planned to be designed in 2021 and be constructed in 2022. The total project cost estimate is \$708,039, and the federal funding is responsible for 90% of the cost. The city share was accounted for in Traffic Engineering's budget and the project was approved by Transportation Commission at its April 28 meeting as part of this year's Vision Zero projects. A Council resolution was introduced to enter into an agreement with WisDOT for design and construction of the project.

Complete, Safe, and Green Streets

- Vision Zero project list presented to TC, along with buffered bike lanes on Whitney Way. The project list was passed by TC.
- We received comments from the Vision Zero Network on Madison's application to be included as a Vision Zero city in the Network. We are addressing their comments.
- We interacted with Toole Design regarding their initial public engagement efforts, as well as preliminary exhibits showing their spatial analysis. The exhibits were interesting and informing and we look forward to showing the TPPB.
- Downtown and East Washington There is a growing speeding and cruising problem on East Washington Ave that has probably been exacerbated by the pandemic. TE and MPD have met several times to develop counter measures, which will include targeted enforcement during weekends.
- Staff presented the 20 is Plenty proposal to the Transportation Policy and Planning Board and Board
 of Public Works for inputs, and received support from the committees. Transportation Commission
 approved the phase 1 program at its April 28 meeting and commented on the candidate

neighborhoods for Phase 1 implementation. Staff are working on refining the candidate neighborhoods. Transportation Commission plans to make a decision on the two neighborhoods for Phase 1 implementation at its May 12 meeting.

Capital Budget

• All three divisions are preparing cost estimates for inclusion in the Capital Budget requests. This includes updating the BRT budget, a city-wide 20 is plenty initiative, equipment upgrade for TE field operations, and costs associated with the transition of PEO's to the Parking Division.

TPPB Schedule and Potential Agenda Topics

5/3/21

TPPB Date	Potential Agenda Topics
1/4/21	Easement Administrative Approval – list of examples of how it applies
-/ -/	Approve BRT LPA Revisions - Mike
	Transportation Department 2020 Report - Comp Plan Review
	2021 DOT Work Plan ?
	Review and Approve Traffic Calming Report Summary and Request for
	Extension
1/18/21	Cancelled
2/1	Taxi Licensing Fees
	RP3 Ordinance – legal options (possible)
	Metro Network Redesign PI strategy (check with UA and JWA)
	- Update on CGS and VZ PI Strategy (internal)
2/15	Robert Burck Thank you
	Capital Improvement Ranking Process – comment process – attach MNPLS
	Rescheduling of June meetings
	2021 DOT Work Plan
	2021 TPPB Work Plan – major policy goals
	Future Parking Policy Desire Discussion (start with position paper)
	Tenney Lapham
	Madison Yards
	Volunteers – Network Redesign Effort
	State Street discussion
3/1	Metro Network Redesign Workshop (1.5 hours)
	Intercity Bus Terminal/Lake St lot RFP
3/3	Metro Network Redesign – Stakeholder Meeting – 3 members
3/15	PEO Transfer to Parking (?)
	Crossing Guard Referral
	Voges Road Referral
	Westown - Odana Area Plan
3/24	Joint meeting with TC
	Status of Action Items from Previous Joint Meetings
	TC Ordinance Review
	Traffic Calming Update
	Updates on Complete Streets, VZ, Metro Redesign, Parking Utility, BRT
	Funding/Reserves
	2022 Budget Preview
4/5/21	Accepting Comprehensive Plan Update
	Interim VZ HIN and UW HIN proposal
	Draft VZ 2020 Project List – to TC
	Action Plan deadline extension
	BRT - FTA Shared Development opportunity
	BRT – West Terminal, East Terminal
	Review Toole's Downtown Bike Pkg Report status
	Equity Options for Commission/Board – to TC
