Subject: In support of Item #10

Dear Plan Commissioners,

I'm writing to you in support of Woodman's proposal to demolish and reconstruct their gas station, car wash, and lube center. The team at Fox Arneson has been very responsive to suggestions put forward by the neighborhood and have worked to incorporate these suggestions into their final plans.

While many neighbors were sad to hear of the closing of the restaurant, there is support for the proposed improvements including the improved motor vehicle traffic flow and queuing, improved walking and biking access, and overall aesthetic improvements from the additional trees and plantings.

Thanks in advance for your thoughtful consideration.

Grant Foster
