

Hello,

I'm a neighbor on Lakeside St. I'm fond of the Lakeside Café and want them to succeed as a local business, but believe a license for amplified music would be inappropriate for this residential street. I expect the normal hustle and bustle of a city and occasional noisy public events but this is a chronic exposure to intrusive sound. The few businesses we have are quiet, low traffic volume. The Café has already shown their disrespect for their neighbors by continuing without a license until they were cited and I have little trust that they will necessarily honor their promises of limitations in the future. I don't think a "vote" of pro and con is reasonable when those who will not be affected are included! Quality of life in this gem of a neighborhood is being affected by increasing loud music and I would like the events to be limited to large public events and not for-profit businesses. Please help to keep Madison a pleasant place for all.

Please vote AGAINST approval,

Thank you! Robin Chene, MD
