Called to share the following comments:

He Completed survey

Not sure if he can make it to meetings, provided the following:

User of City Courses for long time. There is room to improve. Options start to wade into it. If had to pick in 10 minutes, thinks best listed is to close Monona and eliminate 9 holes at Yahara. Why?

A little excess capacity at Yahara, if 9 holes peeled off, cost saving. Eliminating 18, you will see surge at yahara. 18 holes cannot handle it out there. Doing least amount first without doing major surgery. Free up uses for other than golf, which is supportable within the parks system. Monona could be used for other purposes. Real mistake to cut back yahara by more than 9 holes.

Really talented people that understand the game of golf. Need someone with solid knowledge to be part of conversation. Yahara prone to having some holes damaged by water, the water issue could be part of closure discussion.

Yes, there's a solution, but don't do major surgery first.

**MADISON PARKS**

Hello All,

I received four calls over the past two days (all voicemails) from folks in opposition to closing Glenway Golf Course. None of them left call back information, though their names are below so that they may be added to the community input documents in opposition to closing Glenway. Thank you!

- Donna Kranz
- Michael Jackson
- Gary Humphrey
- John Bellanti
