Flag Status: Completed

Greetings,

I commute by bike for most of the year, riding thousands of miles annually on the SW Bike Path. The current lack of lighting between Breese Terrace and the Beltline is a serious safety hazard. While I always ride with lights after dark, I've still nearly hit pedestrians, dogs, other cyclists (riding without lights) and wildlife along the path. As a former alder and BPW member in Fitchburg, I can understand the pressure placed on you by a vocal group of property owners. However, I ask that you consider the greater good of the community and support the lighting of the path.

Thank you,

Andrew R. Potts
