Traffic speed/volume on Westfield is out of control...especially Old Sauk to Farmington...traffic calming is greatly needed...speed bumps, stop signs, a traffic island at Farmington...anything to slow down speeding cars and service trucks. I'm sure nothing structurally will be done if the bus route is added to Westfield...but at least reducing the 30mph speed limit to 25 would help. Can't imagine what this road will become with speeding cars and buses!
