City of Madison Downtown - Long Views
Judge Doyle Square - 2019.10.00
February 04, 2020

The views of this three dimensional computer model are an approximation of the building heights in downtown Madison based on Google Earth images, photos of the buildings, and GIS information of city topography. While we have endeavored to model the buildings accurately, Potter Lawson does not guarantee that all the building heights are 100% accurate.
