Jason,

I want to let you know that I won't be able to make it to the hearing tonight due to I'm sicker than a dog.

But I would like you to read my statement to them, please:

I've used Metro for many years, since high school. Been through many changes but they were

not as bad as what is being suggested now. Using just cash instead of tickets. I rely on the ticket system, I would find it difficult to always have to have cash on hand for a two way ride. It would cut into someone's monthly budget including mine. And won't be able to spend money on important items, and also have fun.

I have friends who also depend on Paratransit and they make less money than I do, this increase would take the opportunity of some going to movies and shopping, and other places, due to always having to make sure they have enough money for both rides. In the end, the person would pay more for the transportation than the actual event.

So I really think you should really rethink this plan of yours. (Jason, Too Harsh?)
