Subject: Barriques request for referral

Hi Matt & Tim - We would like to request that our CUP application be referred for an additional 3 months at the request of our neighbors and ourselves while we continue to work through options on how to further minimize the impact of our coffee roasting on the surrounding area. Specifically we will be installing a new, larger catalyst into our existing afterburner setup that we would like to see the affects of as well as several modifications to the exhaust stack itself that we are considering that may reduce the already minimal impact we are having on our neighbors. We will of course also continue working w/ the neighborhood to address other options that they may surface and evaluate those on their possible applicability to our business and impact on the question at hand. Based on the current Plan Commission calendar we would request our application to be considered on the September 21st meeting as both Finn and I are out of town during both meetings in August. Thank you for the consideration and if you have any questions, please let us know.

MRW
