PINNEY LIBRARY

516 COTTAGE GROVE ROAD, MADISON, WI

ADULT COLLECTION

PINNEY STUDIO

QUIET READING ROOM

Reading Room

This piece will be installed in the library's reading room, a space intended for contemplation. Throughout the library design process, we have heard from the community that the new Pinney Library should maintain a strong connection to the natural world and incorporate a sense of warmth and light. We seek an artist who will create a wall-mounted two or three-dimensional work that emphasizes organic forms and relates to the wood and glass elements that are prominent in the architecture of the space. Project budget not to exceed \$5,000.00 must include artists fee, supplies, travel, fabrication, installation and all related costs.

GARDEN/ TERRACE

Outdoor Courtyard

Public Art #2: This piece will be a wall-mounted installation (for example, a mural, mosaic wall or mounted sculptural piece) located in the new library's outdoor courtyard, a space primarily used by children and families. The courtyard will be a part of the library's PlayLab, an area dedicated to exploring early literacy skills through interactive play. The work may be two or three-dimensional, but must be installed vertically. The work should brighten this active community space and reflect the cultural, linguistic and/or environmental diversity of Madison. Project budget not to exceed \$10,000.00 must include artists fee, supplies, travel, fabrication, installation and all related costs.
