Analysis and Conclusion

The Landmarks Commission received notice from Madison Building Inspection on October 23, 2020, that they believed Demolition by Neglect was occurring at 719 Jenifer St. Staff worked with the property owner and their contractor to develop a proposal that would address the neglect to the structure. The Landmarks Commission held a public hearing on January 11, 2021, to determine if demolition by neglect was occurring. The commission also approved a Certificate of Appropriateness at that time to address all items from the Building Inspection Work Order. The commission referred consideration of the demolition by neglect finding to May. At its May 17, 2021, meeting, the Landmarks Commission reviewed the progress on the approved work to rehabilitate the historic structure and the applicant provided an updated timeline for completion of the work.

Staff has continued to monitor the work at the property, which appears to be in line with the work approved per the Certificate of Appropriateness. The work at this point is approximately 90% complete and the applicant has ordered final materials. The project is close to completion and the applicant has addressed the elements of serious deterioration on the exterior of the structure.

Staff does not believe that demolition by neglect is occurring at the property at this time. Both Building Inspection and Planning staff will continue to work with the property owner to finalize all work related to the Certificate of Appropriateness and the BI Work Order.

Recommendation

Staff recommends that the Landmarks Commission find that the property at 719 Jenifer Street is not undergoing demolition by neglect as defined in Chapter 41.
