

Birds and Bat Houses and Other Issues *(As this is actually broader, do we need a new title?)*

To guide our discussion, here are some broad topics to consider.

Types of proposals which might be appropriate

List of examples of things that might be covered by this new policy: Volunteer flower beds, pollinator gardens, native plantings, bird houses, blue bird trails, bat houses, Scout projects, Little Free Libraries volunteer signing efforts, temporary science education projects, other?

Characteristics of the project that are required to be part of the proposal. Proposals must be:

- sponsored by a group
- be a well-developed concrete project
- Identified time frame
 - Blink Item (in place for 6 weeks or less)
 - Temporary Item (in place for less than 12 months)
 - Permanent Item (in place for more than 12 months)
- Identify anticipated life-span of “installation”
- Include a plan that include a revenue sources and responsible bodies for installation and maintenance
- Be submitted at least 90 days before expected installation for staff consultation
- Others?
