# With Left Turns

# Without Left Turns

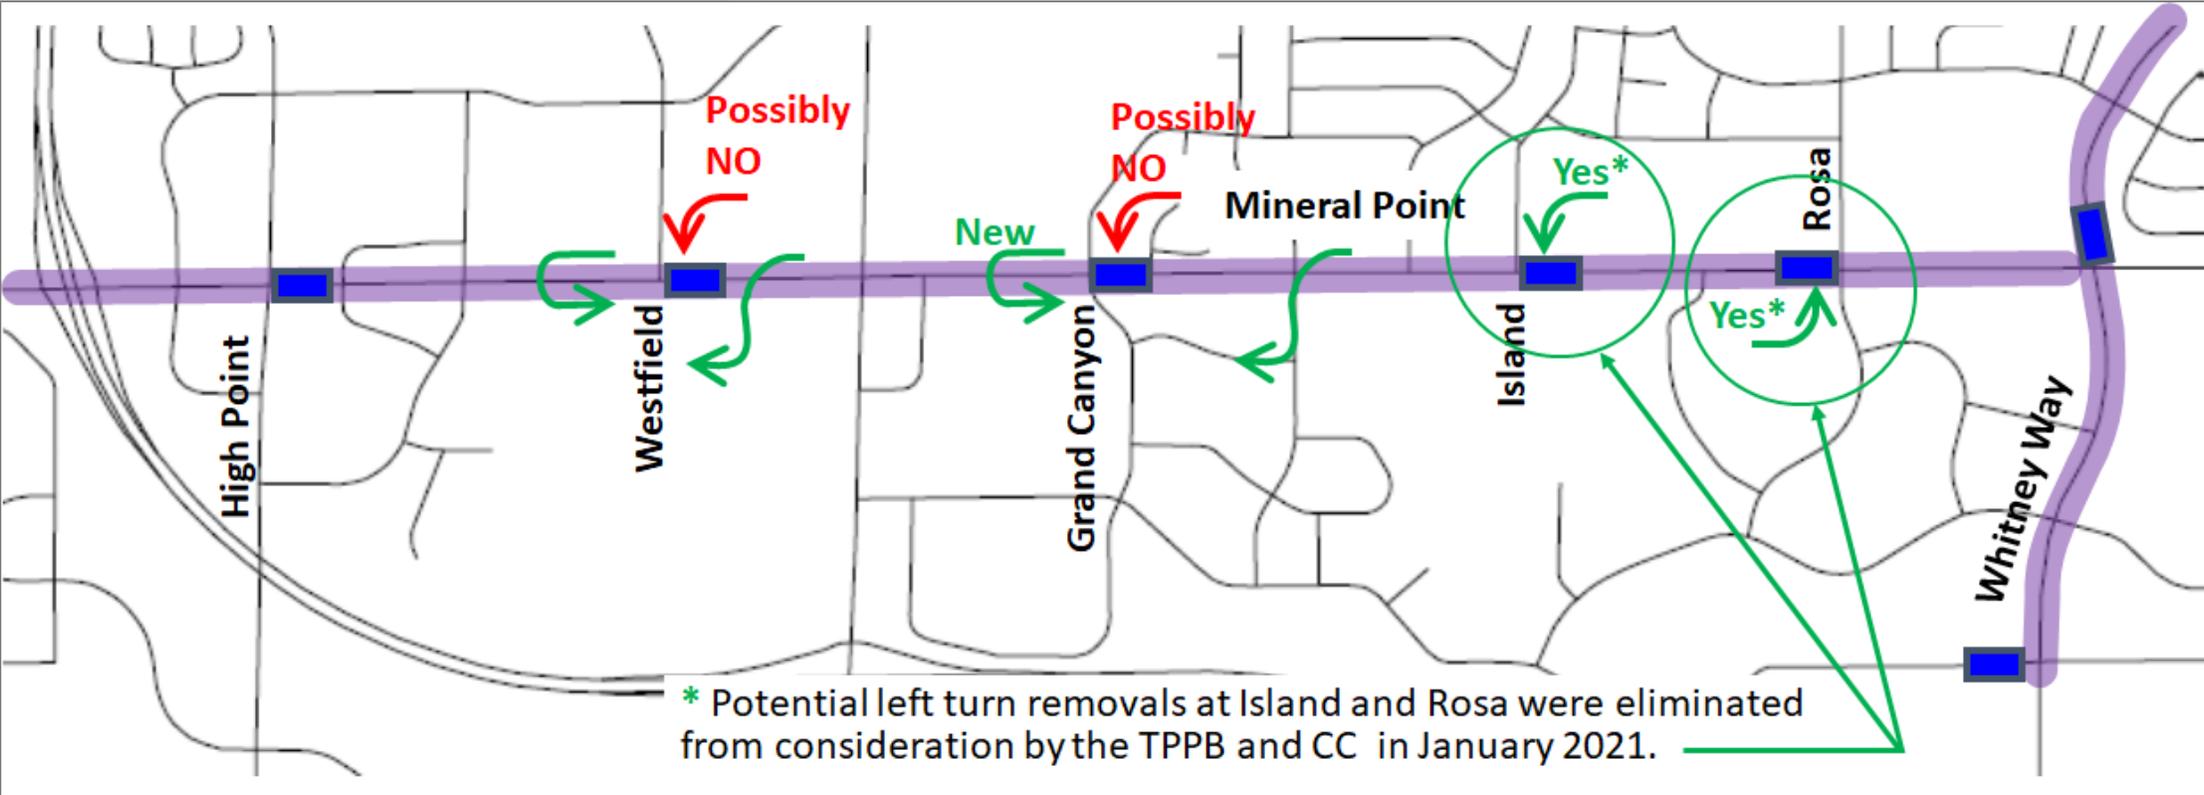

MADISON DEPARTMENT

OF TRANSPORTATION

# Mineral Point Road

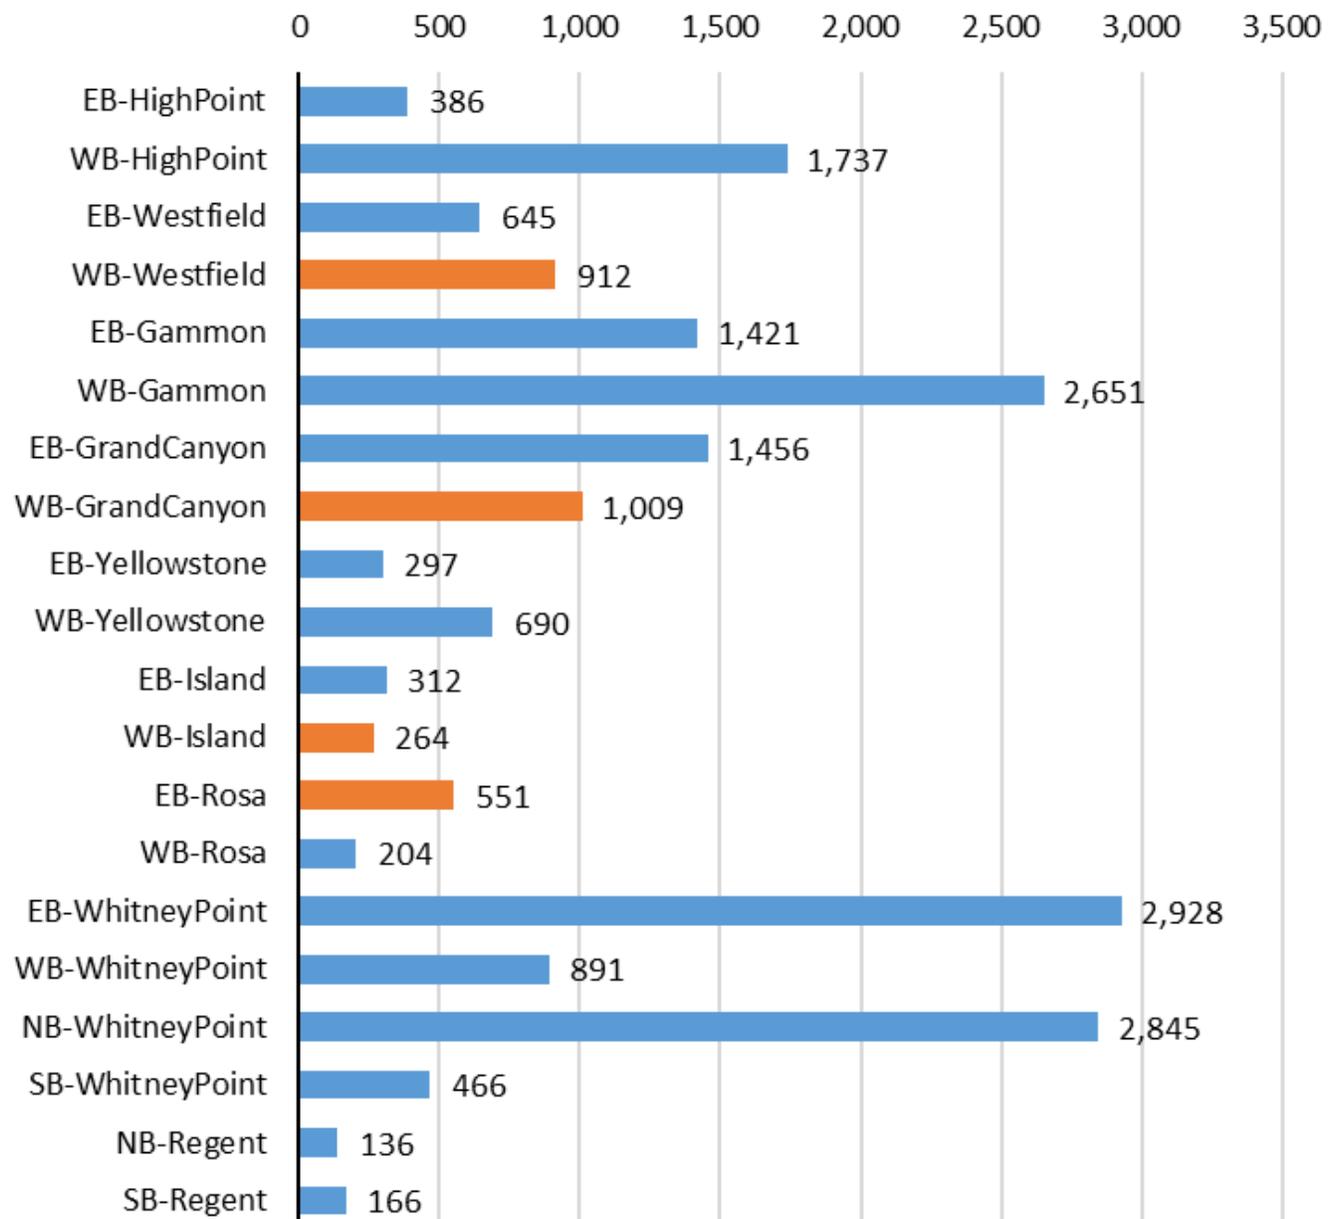

MADISON DEPARTMENT

OF TRANSPORTATION

## All Day Left Turns - Streetlight

# Recommendation – Keep all Left Turns

- Removing only two of seven left turns will be a marginal benefit
- Left turns at Westfield and Grand Canyon have higher volumes than other comparable intersections
- Eliminating WB left turn at Westfield could reduce the utility of a future north-south street

# Outcomes

- Stations will be about 12 feet wide
- BRT buses will have to make a zig-zag movement
- Most or all left turns will be protected-only
