November 16, 2015

Ms. Marla Eddy
Forestry - Madison Parks Department
1402 Wingra Creek Parkway
Madison, WI 53715

Dear Ms. Eddy,

American Transmission Co. (ATC) is applying for a permit to perform utility line clearance operations including pruning and removal of trees in the public right-of-way of streets, alleys, highways and greenways within the City of Madison in the areas outlined in Exhibit A.

ATC will be performing the work to facilitate adequate clearances between its high voltage transmission facilities and vegetation in preparation for a pole and conductor replacement project. Wisconsin Administrative Code Public Service Commission (PSC) 114 requires electric utilities maintain safe clearance between vegetation and electrical conductors. Additionally, PSC 113 requires electric utilities to identify potential natural power line hazards. ATC will be performing the work to facilitate safe and reliable clearances to its high voltage transmission facilities in accordance with these codes.

ATC will carefully evaluate trees in the public right-of-way to determine appropriate action whether it be pruning or removal. ATC contract crews will be pruning trees as outlined in ANSI A300, the American National Standards Institute (ANSI) guide to pruning, and ANSI Z133.1 tree care operations. We will also be working with City Forester regarding appropriate trim or removal prescriptions.

ATC's contractors will begin conducting line clearance operations once Habitat Stewardship Committee approval is obtained and a permit is issued. Exhibit A is attached showing areas we anticipate being affected by our line clearance work listed by street name and block number.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Benzschawel", written over a horizontal line.

Joe Benzschawel
Transmission Vegetation Management Specialist
