(Please contact the Historic Preservation Planner for specific submission requirements.)
Other (specify): Development adjacent to Landmark Structures

PLANNING DIVISION USE ONLY
Legistar #

3. APPLICANT

Applicant's Name: Stephen Mar-Pohl Company: InSite Consulting Architects, LLC
Address: 115 E. Main Street, Suite 200, Madison, WI 53703
Telephone: (608) 513-1992 E-mail: steve@icsarc.com

Property Owner (if not applicant): Beitler Real Estate Services LLC (as Tenant); City of Madison (as Landlord/Property Owner)
Address: 980 North Michigan Avenue, Suite 1225, Chicago, IL 60611

Property Owner's Signature: [Signature] Date: 02/06/2017

NOTICE REGARDING LOBBYING ORDINANCE: If you are seeking approval of a development that has over 40,000 square feet of non-residential space, or a residential development of over 10 dwelling units, or if you are seeking assistance from the City with a value of \$10,000 (including grants, loans, TIF or similar assistance), then you likely are subject to Madison's lobbying ordinance (Sec. 2.40, MGO). You are required to register and report your lobbying. Please consult the City Clerk's Office for more information. Failure to comply with the lobbying ordinance may result in fines.

4. APPLICATION SUBMISSION REQUIREMENTS (see checklist on reverse)

All applications must be filed by 4:30 p.m. on the submission date with the Preservation Planner, the Department of Planning & Community & Economic Development, Planning Division, located in Suite LL-100, of the Madison Municipal Building, 215 Martin Luther King, Jr. Blvd. Applications submitted after the submittal date or incomplete applications will be postponed to the next scheduled filing time.

APPLICATION SUBMISSION REQUIREMENTS CHECKLIST:

In order to be considered complete, every application submission shall include at least the following information unless otherwise waived by the Preservation Planner.

- Landmarks Commission Application w/signature of the property owner (1 copy only).
- Twelve (12) collated paper copies 11" x 17" or smaller (via mail or drop-off) of submission materials (see below).
- Electronic files (via email) of submission materials (see below).
- Narrative Description/Letter of Intent addressed to the Landmarks Commission, describing the location of the property and the scope of the proposed project.
- Architectural drawings reduced to 11" x 17" or smaller pages which may include:
 - Dimensioned site plans showing siting of structures, grading, landscaping, pedestrian and vehicular access, lighting, signage, and other features;
 - Elevations of all sides showing exterior features and finishes, subsurface construction, floor and roof;
 - Floor Plan views of levels and roof;
 - For proposals of more than two (2) commercial or residential or combination thereof units, a minimum of two (2) accurate street-view normal perspectives shown from a viewpoint of no more than five (5) feet above existing grade.
- Any other information requested by the Preservation Planner to convey the aspects of the project which may include:
 - Photographs of existing conditions;
 - Photographs of existing context;
 - Manufacturer's product information showing dimensions and materials;
 - Other _____

Project Description

The Judge Doyle Square project includes a significant change in the city of Madison’s downtown core and the area between the historic Madison Municipal Building, the Bellevue Apartment Building and the Fess Hotel (Now the Great Dane Brewery) at 123 Doty Street. It is a large and challenging project that has required the cooperation of a large number of interested parties and stakeholders. We have worked very hard to develop a plan that meets the requirements set forth in the City of Madison’s zoning code specifically relating to the proximity of the developments sites to the above-mentioned Landmark structures. The proposed buildings are large, but several significant steps have been taken to limit the impact of their size on their historic neighbors:

- Density/Mass – The building massing has been carefully considered to maintain a respectful relationship in its context. It has been conceived as three separate towers that are gently curved to create a new urban place on Pinckney Street, and reduce or soften the outer edges of the development and lessen their impact on the streets and the buildings’ historic neighbors
- Materials - Materials have been selected that are complimentary to the adjacent neighboring buildings. Details will be developed to provide an appropriate human scale to the façades that come in contact with the pedestrian on the street. The buildings use glass extensively in the floors above the stone façade areas, the glass curtainwalls will be engineered to actively engage the sky clearly setting them apart from the pedestrian areas at street level
- Scale - The ground floors of the buildings are clad with stone in such a way as to carry on the rhythm of the adjacent buildings; for instance, belt courses on the MMB has provide the spring line of the transition between stone and glass on block 88. Further development of the elevations and details will only enhance this interaction
- Pedestrian interaction - The buildings have been designed to engage the street similar to their historic neighbors; and will be developed to enhance and enliven a long underutilized pedestrian opportunity on Pinckney, Doty and Wilson

NOTE: AVERAGE ELEVATION FOR BUILDING HEIGHT = 903.5'
