Title

Reestablishing Excavation Permit Fees (Citywide)

Body

In accordance with Section 10.05(7)(a) of the Madison General Ordinances, the excavation permit fee shall be established by the Board of Public Works in an amount sufficient to recover the costs incurred by the City. This fee shall recover the City's administrative and inspection costs, as well as degradation costs should the Permittee choose to repair rather than restore the right-of-way. The fee may be reestablished by the Board of Public Works as needed to accurately reflect the costs incurred by the City.

See attached document for revised permit fees effective February 1, 2021.
