Fiscal Note

The proposed resolution amends the Engineering - Facilities Management capital budget by increasing GO Borrowing by \$348,000 for the CCB Building Improvements capital program (Munis project # 10561). Funding is for the City's portion of window replacements on the MLK façade.

The 2023 adopted budget included an appropriation of \$1,200,000 in GO Borrowing for CCB Building Improvement. The majority of this amount is reserved for the City's portion of a generator upgrade occurring in 2023 and 2024, with \$400,000 designated for the City's portion of window replacement on the MLK façade. The window replacement project is occurring in coordination with Dane County (see Legistar File 66667, RES-21-00607 for the intergovernmental agreement between the City and County). The County recently received bids for the work that were over budget. The City's portion totals \$748,000, which is \$348,000 over budget. An amendment to increase the budget is necessary to complete the project.
