Title

SUBSTITUTE - Reaffirmation of Resolution Enactment No. RES-15-00334, File I.D. #37723 - Garver Selection Resolution.

Body

From 1906 through 1997, the Garver Feed Mill was a working industrial building and a significant feature on the east side of Madison. The building was designated as eligible for listing on the National Register in 1992 and designated a local landmark in 1994. In 1997 after a two-year fundraising campaign, the Olbrich Botanical Society (the "OBS") acquired the Garver Feed Mill (the "Building") and approximately five acres of land surrounding it (collectively the "Property") for \$700,000. The City Parks Division acquired the surrounding 17.8 acres north of the Property to Fair Oaks Avenue, commonly known as the "North Plat". OBS then transferred ownership of the Property to the City of Madison (the "City").

Beginning in June of 2014, the Mayor constituted a Committee charged with establishing criteria for reuse of the Property, with soliciting proposals, and recommending a proposal to the Common Council. The Committee again developed a RFP while holding four (4) public meetings, including a public hearing. The RFP was

recommended to the Common Council and approved on October 22, 2014 (Resolution No. 12-00752, File I.D. #35479). In accordance with the RFP, proposals were received until December 19, 2014. Four proposals were received.

The Committee reviewed the proposals, interviewed the developers who submitted the proposals, and heard public testimony. After reviewing the four proposals and all associated information, the Committee determined that Baum Development, LLC acting as Garver Feed Mill, LLC (together the "Developer"), best met the criteria that was in the RFP and that its proposal was in the best interests of the City of Madison. The Common Council selected the proposal of Baum Development as outlined in Resolution Enactment No. RES-15-00334, File I.D. #37723.

Wisconsin Department of Natural Resources (WDNR) Stewardship Funds were used for purchase of the Property and the North Plat. As a condition of the receipt of the WDNR Stewardship Funds, deed restrictions were placed on both the Property and the North Plat, limiting their use to park uses and limiting the City's ability to lease or sell them. To rehabilitate the Building and allow the non-park uses on the Property and the North Plat, the City has acquired additional parkland adjacent to Hill Creek Park and the WDNR has transferred the WDNR deed restrictions to this new parkland pursuant to the final deed restriction transfer document attached as Exhibit A.

The Developer proposes to use federal New Market Tax Credits to partially finance the redevelopment. At the end of July, 2016, the City was notified by the Developer that it needed some additional evidence that the City of Madison has been actively working on the Developer's plan. from the City of Madison for Developer's prospective New Markets Tax Credits investors that the project has the City's approval to move forward as proposed, including specifically the financial assistance of not less than \$1.825 million as described below in order to advance the Developer's development plan, as described in the conditionally approved Specific Implementation Plan attached here as Exhibit B.
