

UHF Draft Vision, Goals, and Objectives

Vision

The University Hill Farms vision for the next 10 to 15 years is to create a welcoming community that will benefit from new development while improving the assets and unique fabric of the neighborhood.

The neighborhood vision will be achieved through public and private investments, innovative social policy, developing practical amenities, creating places that serve all neighborhood residents, and crafting a broader neighborhood identity that will establish it as not only a historic neighborhood, but also as a culturally and socially diverse community.

To achieve this vision, the plan will take advantage following opportunities:

- Capitalizing on the naturally occurring senior environment by ensuring the physical environment, home services, and social network support residents to age in place safely.
- Encouraging new urban, compact development to support job growth, urban living, and opportunities for inclusion of community amenities.
- Remaking Rennebohm and Garner Parks from ordinary to extraordinary places.
- Implementing place-making strategies at the school grounds that benefit the school, the needs of the growing student population, and that create a neighborhood gathering place for all ages.
- Encouraging continued infrastructure investment.
- Capitalizing on multimodal improvements by improving access, lifestyle changes, and making routes safe and interesting through physical environment improvements.
- Harnessing the social capital of residents, businesses, schools, and service providers to forge partnerships that enrich lives and build a stronger sense of community.
- Developing proactive strategies to nurture the urban forest on private properties, street terraces, and parks and open space areas.

DRAFT FOR DISCUSSION

Goals	Objectives			
<p>Create a community that is welcoming and livable for all residents</p>	<p>Integrate Sheboygan Avenue into the neighborhood to the south and employment center to the north.</p>	<p>Ensure the neighborhood is safe, welcoming, and attractive to seniors.</p>	<p>Ensure seniors can stay in the neighborhood or in their homes throughout all life stages by assisting with repairs and alleviating tax burdens.</p>	<p>Support the development of attractive and affordable housing for families.</p>
<p>Develop places that welcome and create a sense of community</p>	<p>Activate parks, open spaces, and school grounds through physical improvements and regularly scheduled events.</p>	<p>Create new public or private features and spaces for the anticipated population growth that meet the needs of seniors, families, students, and young professionals.</p>
