Run Madtown
May 27 – 28, 2023
Emergency Action Plan
And Protocol

EMS Command Post

The EMS Command Post (CP) will be located per direction from Madison Fire Department. The CP will contain representatives of the event, City of Madison Police, UW Police, 911 Dispatch and City of Madison Fire.

Communication will be handled within each department with communications flowing freely between groups as necessary. The event will communicate with cell phones.

Emergency Management Committee (EMC) will include the designated representative from Endurance Marketing \ Run Madtown Race Director (Beth Salinger), Course Director (Brandon Presern) and Operations Company (Lakeshore Athletic Service). The EMC can be expanded to include the jurisdictional police department, jurisdictional fire department, communications personnel, medical director or emergency health personnel, and event volunteer coordinator, depending on the nature of the emergency. This meeting will be convened as quickly as possible. All decision makers need to know what is going on, and what the official position or response should be, before making any statements publicly. Any/All statements will be generated from this meeting. The only person allowed to speak about Run Madtown from the event will be Beth Salinger.

Race Command – Key Personnel

TBD – Race representative in Command Center

Beth Salinger – Race Director 312.925.6067

Brandon Presern – Course Director 312.259.2496

Brian Ditty – Start \ Finish Line Director 614.893.7439

Molly Chernick – Post Race Party Director 630.207.1413

Creigh Kelly – Race Announcer 303.667.2131

Lenny Gilbert – Medical Director 630.319.8700

Amy Epstein – Social Media 336.404.8994

Communications to spectators will be made via loudspeaker announcements located the Start line and at the finish line.

Communication to on course volunteers will be made via private text messaging system

Communication to participants will be made via private text messaging system

that extra safety personnel and markers will be on hand to direct you along the detour. Your safety and wellbeing are our main concern, so please be aware of the changes."

For any other delay: "Attention Athletes. Because of _____, the start of the Run Madtown will be delayed ____ minutes. We plan to start the race at XX:XX A.M. (**as soon as the situation is corrected**). We will keep you updated on the start time, but please, stay near the starting line."

Emergency During Event:

Weather Related:

If dangerous weather conditions occur during the race or temperatures become too dangerous, the Race Director, in consultation with the EMC, Medical Director, and CP will make the decision on whether to continue the event. Runners will be notified on course by event personnel via text message, police, and through the event flag system. (The procedures will be provided on the event website, in race weekend magazine, and announced to runners on race day).

The Emergency Management Committee (EMC) makes the final call regarding weather matters. Weather information will be relayed to the Media by the Race Director; and will be the only spokesperson for any media questions.

The Race Officials in and out of the Command Center will continuously monitor weather reports including active radar starting 2 hours prior to the race start and continuously throughout the day. Weather updates will be broadcast on the primary race operations radio channel at a minimum of every 30 minutes prior to the race start. After race start, weather updates will be broadcast whenever any weather condition of concern is detected. Threshold for lightening is 10 miles.

Inclement Weather

If the potential exists for hazardous weather the Race Director will inform all race staff and the race announcer. Announcements will be made periodically and, on a schedule, to keep spectators and participants informed.

The Race Director will decide on the start of the event 20 minutes prior to published start time. If conditions prohibit the start of the race on time appropriate delays will occur until safe to do so. If conditions do

Hospital Transports

The primary hospital for transports is UW Hospital located at 600 Highland Ave. Other hospitals include Meriter, located at 202 S. Park St. and SSM Health, located at 700 S. Park St. These hospitals will be used by choice of patient and/or EMS Transport for more severe injuries. Madison Fire and EMS is the primary transport for the event.

Medical Tent

The race medical tent will be located on Library Mall. The medical tent is designed to triage and to treat minor injuries. The tent is located near the finish but allows for access for medical transports to local hospitals. Lenny Gilbert is the Medical contact for the event.

What Event Day Emergencies Can Occur?

Issues that can be faced on the day of an event are:

- Severe or Extreme Weather Conditions – extreme low/high temperatures, lightning, tornados
- Emergency course changes (in case of on-course fires, vehicular accidents, overnight storms or flooding)
- Accident along the course involving runner(s)
- Runner death
- Lost Child(ren)

Due to any other unforeseen emergencies that could occur on race day, we will communicate directly with emergency personnel and their respective agencies to develop the appropriate response(s) (or rely on them to enact their own public safety response plan).

Starting Line Announcements:

For weather: "Attention athletes, our weather forecasters from ([media partner](#)) have informed us that ([weather condition](#)) is in our area. Because the safety and wellbeing of our runners, spectators, volunteers and safety workers along the course are foremost in our minds, we are delaying the start of the race for [X](#) minutes. Please seek shelter immediately." ([update conditions at the end of the delay period and announce an additional delay, cancellation, or scheduled start](#))

For emergency course changes: "Attention athletes The _____ Police Department has informed us that because of (flooding, water main break, tree down, fire, wires down, etc.) there will be a slight course change at mile _____ of the ([event distance](#)). If you are running to that mile, be aware

not allow the race to start on time, the race will be shortened and or cancelled.

If inclement weather occurs after the race has started, athletes and volunteers are on their own to seek shelter. Weather issues will be communicated via radio to list below telling people what to do. Potential shelters are schools and churches along the route, park shelters, bridge over passes, parking structures in the city of Madison and on the UW Campus.

Communication plan for broadcasting weather issues TBD will be in the race command center. TBD will be monitoring weather radar and reports via internet weather websites. Andy will also be in direct communication with 911 dispatch regarding anything they are hearing regarding dangerous weather.

Should inclement weather be forecasted/threatening the race, Race Command will be in contact with Beth Salinger, Race Director to inform of situation. Based on information received, threat of weather, location of weather, and direction of travel for weather, a decision regarding the race will be made. If race needs to be stopped or shortened or changed, Beth Salinger, Race Director will make that decision. Communications to Dane County Sheriff, Madison Police, and other parties will be made through Dane County Communications. Decisions regarding the race will be communicated to race staff, volunteer and participants, via the text message. All communications will use cell phones as back-ups and hard lines as a back up to that where possible.

Lost Child Plan:

Any child that is separated from their parents, near the race site, will be brought to the finish line announcer stand. The announcer will request that the parents (by name) will come to the Finish Line Announcer's Stand. It will also be announced to all staff. Staff member MUST stay with child until reunited with parents. If parents' approach regarding their child missing, an all call will go out with description of child. This will also be communicated through event command so Police are aware of the situation. Announcer will also ask for people to look for child and bring them to the announcer tower. Likewise, as Police are approached regarding missing child, it should be communicated to race command so it can be broadcast to Event Staff.

Medical Emergencies on Course or at Finish Line:

If there is serious injury along the course, CALL MEDICAL COMMAND

IMMEDIATELY! Time is of the essence and radio or phone relays back to the Medical Director only delay treatment. Only call 911 for serious injury, not sprains or scrapes.

Volunteer athletic trainers stationed at aid and water stops along the event route will treat minor injuries (treatment will include administering Band-Aids, wrapping sprains, providing Vaseline, etc.). This will provide more immediate treatment and will allow for providing a higher level of care for more serious injuries at the finish line Medical Tent.

Injuries: If someone is seriously injured during the race, the Race Director should contact the emergency contact person and or family as soon as possible. Staff should use an incident report form to collect information about the situation immediately.

Medical personnel: If someone is injured and needs to be transported to the medical tent or hospital, course volunteers should attempt to obtain the name and/or race number of the participant/patient. This is the best and most expedient way to identify the person and contact her/his family. Pass that information along to the event Medical Director, who will pass it along to event staff. It is important to keep track of runners who do not finish the race, in case family members are looking for them at the finish line.

Emergency Route Changes: Police in that particular jurisdiction will make all final decisions regarding any route changes after consultation with Race Director. The Race Director will communicate this information to the EMC and CP.

Media Management

First, identify the problem. **DO NOT speculate** on what the issue may be, before the facts are known.

Second, **DO NOT** make any statement to runners, media, or others. The Emergency Management Committee (EMC) and the Command Post (CP) will include the Event/Race Director, Course Director, Operations Director, and Marketing Director. The EMC can be expanded to include

the jurisdictional police department, jurisdictional fire department, communications personnel, medical director or emergency health personnel, and event volunteer coordinator, depending on the nature of the emergency. Any meeting will be convened as quickly as possible. All decision makers need to know what is going on, and what the official event position or response should be, before making any statements publicly. Any/All statements will be generated from this meeting.

Third, be honest. The object is to relay accurate information while keeping the message simple, proactive and as positive as possible.

Fourth, name **ONE** person who is the official spokesperson of the event (ex: Event/Race Director, Operations Director or Marketing Director). All follow-up media requests will be directed and coordinated through the Marketing Director. This is done to maintain consistency in the message communicated from the event.

Fifth, any request for information, regardless of source, will be handled through the Marketing Director, whom then will schedule a response from the spokesperson. If it is a major event crisis, a news conference will then be scheduled.

Sixth, follow up on a regular basis with updated information as long as the situation is unresolved. For example, delays as the start should be announced every five minutes, with brief explanations on what is being done to rectify the situation.

No general announcement is needed to the public at the start-finish area, but the media may hear about an on-course problem and ask for a clarification or reaction. If you are asked for a comment BEFORE the information is in, and BEFORE you have had a staff meeting, say that "an official statement will be forthcoming", then:

1. Assess the situation. Is it a health emergency? Is it a traffic emergency? What is the appropriate response that will cover the facts while still putting the event in the best position possible?
2. Compose and official statement. This is what will be given to the media, with NO deviation from the talking points. **DO NOT interject opinions.**
3. If there are several requests for reaction, call a news conference. Contact media on site, plus contact local news outlets on the media contact list and inform them of a news conference to release an official statement. If it is appropriate to have other officials in addition to the event spokesperson, have those persons

available at the news conference (i.e., If it is a traffic issue, have a police spokesperson there). **Note: If the emergency is medical in nature, there is little that can be disclosed due to HIPA laws.**

4. Keep the situation information flowing! If there are updates, let the media know. Keeping information from the disseminating sources only leads to speculation and false information.

ANY official crisis statement made by the event should be posted on the event website as quickly as possible.
