Subject: RE: CAMDEN RD, LINDA VISTA, HOB ST PUBLIC HEARING

Kathleen,

Please share this with the Board of Public Works.

I will be unable to attend the meeting of the 17th. I firmly support this reconstruction, and the 15 year payment option for qualified residents. I do not want to slow the project down by asking for a referral.

A neighborhood meeting was held on February 18, 2010. Christy Bachmann and LeAnne Hannan presented the plan and fielded questions and concerns. Residents of that portion of Camden involved in the reconstruction attended, as did the neighborhood association president. There was no opposition to the project evident. Requests were made by property owners and logged with Christy and LeAnne who have met most requests. If trees are removed and need to be replaced, I would request that they be replaced with the most mature trees possible. If water utility work needs to be done, I would like to have them do it in conjunction with the construction.

There has been a request for parking on one side only--David Dryer is looking into that and will get back to me and to residents on it's feasibility.

This reconstruction, as the previous segment of the reconstruction of Camden, was advised by the NRT and supported strongly by the East Precinct Captain and the Neighborhood Police Officer, as well as the Glendale Elementary Principal. The principal stated with his support that there are 25 children who walk to school from their homes on Camden--this is the section with the most student population.

Please approve this plan as presented.

Thank you.

Judy
