Application Type: Demolition Historic Value Review

Legistar File ID # [91925](#)

Prepared By: Heather Bailey, Preservation Planner, Planning Division

Date Prepared: March 5, 2026

Summary

Relevant Ordinance Section:

28.185(7) Review for Historic Value. Every application for demolition or removal of a principal structure shall be reviewed by the Landmarks Commission, which shall provide input to the Building Inspection Division regarding the historic value of the property with the building or structure proposed for demolition or removal.

- (a) If the Landmarks Commission determines that the property with the proposed demolition or the structure proposed for removal has no known historic value, the demolition or removal may be approved administratively under sub. (8)(b) below, provided that at least one of the standards for administrative approval have been met.
- (b) If the Landmarks Commission determines that the property with the proposed demolition or the structure proposed for removal has historic value, then the Plan Commission shall approve the demolition or removal under sub. (9) below, after considering input from the Landmarks Commission.
- (c) Nothing in this subsection eliminates the requirement in MGO Secs. [41.09\(1\)\(c\)](#) and [41.12\(3\)](#) that the demolition of landmark structures or structures in historic districts must also be approved by the Landmarks Commission through the issuance of a Certificate of Approval.

41.28 HISTORIC VALUE ADVISORY RECOMMENDATION

- (1) Review for Historic Value. Following a review of MGO Sec. 28.185 applications for demolition by the Landmarks Commission and based upon application materials, and a report by the City's Preservation Planner, and any public testimony, the Commission shall review [MGO Sec. 28.185](#) applications for demolition and assign one of the following Categories to each principal building proposed for demolition:
 - (a) Category A Demolitions: denotes that the Landmarks Commission finds that the building has historic value based on architectural significance, cultural significance, historic significance, as the work/product of an architect of note, its status as a contributing structure in a National Register Historic District, listed in the National Register of Historic Places, and/or as an intact or rare example of a certain architectural style or method of construction.
 - (b) Category B Demolitions: denotes that the Landmarks Commission finds that the building has historic value related to the vernacular context of Madison's built environment, cultural practices, or as the work/product of an architect of note, but the building itself is not historically, architecturally or culturally significant.
 - (c) Category C Demolitions: denotes that the Landmarks Commission finds that the building has no known historic value. This category may also denote sites or properties that have historic value, and the significance will not be negatively impacted by the removal of the building itself. This category may also include sites or properties that have archaeological or other site findings of significance, but where removal of the building itself will have no impact.
- (2) Presence of Archaeology. When applicable, each finding shall also note the presence of an archaeological or burial site on the site of the building proposed for demolition.

4031 Paunack Avenue

Residential building constructed in 1940, per Assessor.

Applicant: Willie Dean, Ground Up Design Works

Applicant's Comments: The homeowners wish to demolish their existing house and replace it with a new one to better suit their needs. The demolition will be handled by Robinson Brothers Special Project Contractor. The plan is that building materials shall be recycled, salvaged, or properly disposed of offsite. Materials not recycled or salvaged shall be disposed of at a C&D landfill and properly documented. They will also remove concrete, brick and block from foundation walls, slabs, driveway and patio. Haul to pit for recycling/reuse as clean fill. The new house will be a 2 story 2,400SF, 3 bedroom 2.5 bath with a 2 car garage.

Staff Findings: There is no preservation file or State site file for this building. There has been previous survey in the area, but this property was not inventoried in those surveys. The minimal traditional house is not individually architecturally significant and there are no known historic associations. There is no previously identified archaeology in the vicinity.

Staff Recommendation: Staff recommends a finding of (c) no known historic value.
