### Rule Being Petitioned: IBC 507 Unlimited Area Buildings

**I have read the application for variance and recommend:** (check appropriate box)

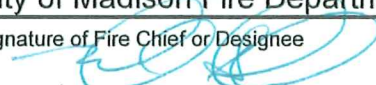

Approval     
  **Conditional Approval**     
  Denial     
  No Comment

- Additional fire sprinkler coverage shall be provided via closely spaced sprinklers at both connections to the parking garage and at the lab/warehouse building. The intent is to provide additional water to reduce the risk of a fire, smoke, and heat spreading from one building to the other via the proposed canopies.
- The canopy protection is necessary to provide protection of occupants walking from one building to the other due to falling ice from the radar tower.
