Subject: Re Brink project

Do we not have enough high rise mixed use business/ apartment buildings? I sat with fifteen younger couples on the east side (on Willy Street)/ even they think we have gone bananas and not done enough preservation, and we discussed rent of \$1700.00 for a single bedroom apartment; I do feel the same developers have the keys to the kingdom and may indeed be paying to play! I also feel middle class students and homebuyers are pushed off this grid. This is all maddening. Also I feel it isn't pretty and I come from a family of architects.
