

2013 Dane County Early Childhood Education Demographic Report

Community Coordinated Child Care (4-C)
5 Odana Ct., Madison, WI 53719
608-271-9181 (george.hagenauer@4-C.org)

Enrollment data is from March 2013. Enrollment data below does not include numbers from public school 4 year old kindergarten (4K) or school age programs that are inside public school buildings. Wisconsin Shares enrollment only includes those children from Dane County enrolled in programs within Dane County.

After a year of increases, enrollment again has decreased while overall capacity remained flat. . A portion of the decrease is due to a major drop in enrollment under Wisconsin Shares- part of which may be due to low income families using Madison’s relatively new 4K program. While enrollment overall declined the number of children in high quality accredited programs increased, probably due to the new Youngstar program. The above chart does not include public school kindergarten enrollment, pre kindergarten at risk programs or on school site public school 4 year old kindergarten programs. **The public school enrollment data for the 2012-2013 school year shows 7348 children in these programs with another 2021 paid for by the public schools but in regulated programs covered by the above chart .**

There was also a major drop in school age program enrollment – it seems due to an increase in publicly supported after school programs in the Madison Schools, **Overall there is an estimated 2500 empty slots in regulated family child care, full day group centers and school age programs in Dane County.**

Family child care also saw a decline this year continuing recent trends. Part Day Preschools saw another drop in enrollment- largely in programs that do not have 4K contracts from the local public schools. While employment in Dane County has been improving, the effects of the recession are still being felt in the child care field. Cost was a major deterrent to using regulated care indicated by parents in a small 4-C study in 2012. This problem is aggravated by the fact the Wisconsin Shares reimbursement rate has been frozen since 2006 and increasingly is reimbursing on an hourly basis not normally used in Dane County. The losses sustained by programs serving children on Shares subsidies are covered by increasing rates overall. This further discourages the use of regulated child care programs by parents who pay full tuition.

In this report there will be some minor variations in terms of total enrollments between some of the different geographic charts involving the City of Madison. This is usually due to the fact that census tracts and neighborhood planning areas vary and often include areas outside the city. In some cases the data can be limited to just the city of Madison and in others the data cannot.

**Child Care Capacity in Dane County
March 2013 by Type of Program**

Because part day programs often have multiple shifts only capacity figures of family child care, full day group centers and after school programs were analyzed. Capacity increased this year but declined in family child care..

**Children Supported by Wisconsin Shares Subsidies in March 2013
Analyzed by Zip Code in Which They Are Enrolled**

%change relates to the difference between the March 2012 and March 2013 numbers of children supported by Wisconsin Shares. Numbers are based on where children were in care not where they lived. This is the largest drop in the number of children supported by Wisconsin Shares Child Care subsidies since the program began.

**Children Supported by Wisconsin Shares Subsidies in March 2013
Analyzed by Zip Code in Which They Live**

Children are not necessarily in care near where they live since many parents prefer to have their children in care where they live. This chart provides a count of low income children on Wisconsin Shares subsidies by the zip code in which they live and compares that to the number of children on subsidies in care in each zip code and the number in 2012..

Children on Shares by residence	Zip	Age			2013 total	Difference 2012-13	Difference with enrollment

Children Enrolled in Accredited Care by Zip Code March 2013

Accreditation is a process by which an early childhood program can be certified as meeting higher standards than those required by state regulation. There are several types of accreditation available to programs including one done by the City of Madison child care unit which set up a local accreditation program before any national ones existed. The below chart shows the amount of children in high quality accredited care within the county. The percent Madison accredited column is the percent of accredited enrollment due to Madison accreditation. The Percent in accredited programs column is the percent of all children enrolled in care that are in accredited programs.

2013 Totals

**Child Care and Early Childhood Education In Madison
A Neighborhood Analysis March 2013**

Explanation of the charts :

A map for the census tract areas follows. All data relates to programs regulated under state law in March 2013.

Infant – Toddler. is the count of children under 2 in early childhood programs in March 2013.

Preschool is the count of children age 2 through age 5 in early childhood programs in March 2013.

School Age is the count of children 6 years old or older in early childhood programs in March 2013.

Total Capacity is number of regulated slots in March 2013

Excess Capacity is the difference between regulated capacity and total enrollment. It may underestimate the number of available slots due to some children attending part time.

Market Share of Accredited Program Enrollment by Census Tract March 2013

Accredited program totals are based on City Accredited programs. Negative numbers in excess capacity are due to multiple part time children filling single slots.
