**Project Description, Project Analysis, and Conclusion**

The applicant proposes to demolish 1½-story, 1,263-square-foot, two-bedroom, single-family residence with attached two-car garage at 2250 Roth Street. The City’s Assessor’s Office notes the residence was constructed in 1942. Upon demolition, the applicant intends to restore the footprint to grass to be maintained as part of the new City of Madison Tilton Park which will be created as a result. The three sites will all be rezoned to the PR (Parks and Recreation) District to be match the zoning of the adjacent East Madison Little League baseball fields to the north and east.

The applicant has submitted [demolition photos](#) and, regarding the condition of the structure, stated that it is in “*poor condition, showing obvious signs of deferred maintenance for a number of years.*” Planning Division Staff has not inspected the building.

### **Compliance with Adopted Plans**

The [Comprehensive Plan](#) (2018) recommends Low Residential (LR) uses for the subject sites which it describes as up to 15 dwelling units per acre and one to two stories in height. The [Oscar Meyer Special Area Plan](#) (2020) recommends Parks and Open Space for the subject sites as well as the East Madison Little League baseball fields to the north and east. The [Emerson East-Eken Park-Yahara Neighborhood Plan](#) (2016) does not provide specific recommendations for the subject sites.

### **Standards for Zoning Map Amendments**

The Zoning Map Amendment standards, found in 28.182(6), MGO state that such amendments are legislative decisions of the Common Council that shall be based on public health, safety, and welfare, shall be consistent with the [Comprehensive Plan](#), and shall comply with Wisconsin and federal law. Chapter 66.1001(3) of Wisconsin Statutes requires that zoning ordinances (of which the zoning map is part) enacted or amended after January 1, 2010 be consistent with the City’s [Comprehensive Plan](#). 2010 Wisconsin Act 372 clarified “consistent with” as “further or does not contradict the objectives, goals, and policies contained in the comprehensive plan.”

Staff note that the proposed rezoning into the PR (Parks and Recreation) District is consistent with the [Oscar Mayer Special Area Plan](#)’s recommendation for Parks and Open Space as well as the [Comprehensive Plan](#)’s recommendation for Low Residential (LR) uses since the Comp Plan notes on Page 20, “*A limited amount of nonresidential uses may also be located within residential categories. Such uses, which often serve as focal points for neighborhood activity, are often relatively small, and therefore not always identified at the scale of the GFLU Map. Nonresidential uses within residential areas may include: parks and recreational facilities, [...].*” Therefore, Staff believe that the zoning map amendment request is consistent with adopted plans and all applicable standards can be found met.

### **Demolition Permit Standards**

At its October 5, 2021 meeting, the Common Council adopted Ordinance 21-00065 (ID [67074](#)) to revise the standards and process for demolition and removal permits in Section 28.185 of the Zoning Code to remove consideration of proposed future use as a factor in approving demolition requests. In order to approve a demolition request under the revised standards, the Plan Commission shall consider the seven approval standards in §28.185(9)(c) M.G.O. when making a determination regarding demolition requests. The factors include a finding that the proposed demolition or removal is consistent with the statement of purpose of the demolition permits section and with the health, prosperity, safety, and welfare of the City of Madison.

The Planning Division believes that the standards for Demolition Permits can be met, but provides the following comments regarding standards 1 and 4.

Standard 1 states that “*the applicant has included information related to any efforts to relocate the building, including but not limited to assessing the costs of relocation, the impact of relocation on city terrace trees, and the structural soundness of the building.*” In communications with staff, the applicant notes that they did consider relocating the structure but that the house is “*not conducive to typical park structure uses such as public shelters, restrooms or storage. For that reason, the structure would also not be desirable if re-located to other park lands.*” Regarding the relocation more generally, they noted that the structure “*is in poor condition, showing obvious signs of deferred maintenance for a number of years*” and that its condition made the move “*not economically realistic.*”

They did note that the Parks Division has made components of the house available for salvage and Deconstruction Inc. has salvaged items from the house.

Staff also makes note of Standard 4, *“That the Plan Commission has received and considered the report of the City’s Historic Preservation Planner regarding the historic value of the property as well as any report that may be submitted by the Landmarks Commission.”* At its May 20, 2024 meeting, the Landmarks Commission found that the existing building at 2250 Roth Street has no known historic value.

Planning Division staff believe all other standards of approval can be found met or are not applicable to this request.

At the time of report writing, no public comments have been received regarding these requests.
