

720 Williamson
Certificate of Appropriateness
October 16, 2023

Proposed Work

- Installation of a blade sign in pilaster next to entrance

Install Location 10' 1" from Grade

Applicable Standards

MGO 41.18 Standards for Granting a Certificate of Appropriateness

(3) Signs

MGO 41.25 Standards for Alterations

(2) Materials and Features

Staff Recommendation

Staff believes that the standards for granting a Certificate of Appropriateness are met and recommends the Landmarks Commission approve the project with the following conditions.

1. Signs be attached to the building at masonry joints using stainless steel fasteners
- ~~2. Approving option 2 for the wall sign with the letters attached to a bar that would then be attached to the building.~~
