Why are you billing this as a "temporary" solution if the intention is for the garden to occupy the park in perpetuity? This is dishonest. We median residents deserve better. You are <loves>

frustrating this on us announced.

Now this evening I learn that you have not even followed City policy in siting the garden. You've missed the deadline for 2016 & by rights ought to be working for 2017.

Also RE Indian Hills park. From what I heard this evening, Indian Hills is a superior location in both the short & long term. This whole process stinks to high heaven.
