

2018 Madison Mallards Capital Improvements

Great Dane Duck Blind Concession Rebuild

In 2018 we plan to re-build the interior of the Great Dane Duck Blind that was damaged due to a fire in the fall of 2017. No exterior changes will be made. The interior will be returned to the same layout and function as the space originally had. The plans have been reviewed by Parks staff and all appropriate permits will be secured by the Mallards or our contractor. Work will be completed prior to the start of the 2018 season.
