Dear Mayor Rhodes-Conway, President Cole and All Alders,

We ask that you reverse your decision as appealed and defer approval of the Stone House Development proposal at 6610-6706 Old Sauk Rd until: a) a Stormwater Plan is approved by City Engineering and b) the City can provide an adequate stormwater infrastructure to accommodate increased storm runoff caused by the Stone House Development project.

Additionally, we find it Unbelievable that the Plan Commission and a developer teamed up in advance and conspired together to radically change the zoning of our neighborhood and prior to any public comment period or neighborhood consideration.

We find it Unbelievable, despite 100% opposition from adjacent property owners and overwhelming public opposition, a decision was made at the 6/10/24 Plan Commission meeting to approve the Stone House Development proposal with zero, let us repeat, zero discussion.

We find it Unbelievable that our recently selected alder used the Plan Commission meeting time to pitch softball questions to both Stone House Development and its engineer, Wyser Engineering when they had previously exceeded their public comment time limit. He did not afford the same luxury to residents who were also cut off when speaking.

We find it Unbelievable at this flood risk location as declared by the City on their Flood Risk Map why Stone House Development choose to start with a large building design and left a small amount of room for a stormwater system, it should be the other way around, first figure out the room needed for a solid performing stormwater design and then design the building. Because Wyser Engineering's stormwater design (revised 5/24/24) does not include spare reserve capacity where flow can be diverted to in an emergency or to perform cleaning maintenance, does not include a water level or water flow monitoring system, is relying on infiltration into soils with subpar percolation rates, does not include confined space entry into the underground infiltration basins for inspection and cleaning and to our knowledge where there are no local confined space vessel cleaning services available, their design will be not be successful and achieve 100% performance, 100% of the time.

We find it Unbelievable that there is no known discussion about modifications to the City's outdated and woefully undersized stormwater sewer system that could accommodate the increased storm runoff caused by the Stone House Development project.

And lastly, we find it Unbelievable that neither the Staff, the Plan Commission or the Common Council is raising any concerns or expressing significant challenges to these issues,

only approving without question.

Sincerely, Gary and Barb Foster
