Introduction

The City of Madison's Urban Design Commission (UDC) has been created to:

- Encourage and promote high quality in the design of new buildings, developments, remodeling, and additions so as to maintain and improve the established standards of property values within the City.
- Foster civic pride in the beauty and nobler assets of the City, and in all other ways possible assure a functionally efficient and visually attractive City in the future.

Types of Approvals

There are three types of requests considered by the UDC:

- Informational Presentation. A request for an Informational Presentation to the UDC may be requested prior to seeking any approvals to obtain early feedback and direction before undertaking detailed design efforts. Applicants should provide details on the context of the site, design concept, site and building plans, and other relevant information to help the UDC understand the proposal and provide feedback. (Does not apply to CDR's or Signage Modification requests)
- Initial Approval. Applicants may, at their discretion, request Initial Approval of a proposal by presenting preliminary design information. As part of their review, the Commission will provide feedback on the design information that should be addressed at Final Approval stage.
- Final Approval. Applicants may request Final Approval of a proposal by presenting all final project details. Recommendations or concerns expressed by the UDC in the Initial Approval must be addressed at this time.

Presentations to the Commission

The Urban Design Commission meets virtually via Zoom, typically on the second and fourth Wednesdays of each month at 4:30 p.m. Applicant presentations are strongly encouraged, although not required. Prior to the meeting, each individual speaker is required to complete an online registration form to speak at the meeting. A link to complete the online registration will be provided by staff prior to the meeting. Please note that individual presentations will be limited to a **maximum of three (3) minutes**. The pooling of time may be utilized to provide one speaker more time to present, however the additional time will be based on the number of registrants from the applicant team, i.e. two (2) applicant registrants = six (6) minutes for one (1) speaker.

Primarily, the UDC is interested in the appearance and design quality of projects. Emphasis should be given to the site plan, landscape plan, lighting plan, building elevations, exterior building materials, color scheme, and graphics. Please note that presentation slides, in a PDF file format, are required to be submitted **the Friday before** the UDC meeting.

RE: Letter of Intent for
Planet Fitness Tenant Improvement
229 West Towne Mall, E16
Madison, WI 53719

To Whom It May Concern:

This letter will serve as our letter of intent to propose a new Planet Fitness club at 229 West Towne Mall, E16, to the City of Madison. The gross area of this tenancy of the mall is 37,734 square feet and changes the existing M (mercantile) occupancy to an A-3 (assembly) fitness center. This project will add a new exterior entrance, an upgraded facade, new signage, landscaping, additional bike parking spaces, sidewalk, and new ADA parking. Inside, the retail space will be remodeled to include cardio and strength fitness equipment, tanning and massage amenities and locker rooms. The facility will operate 24 hours a day, seven days a week. The exterior lighting will not change. The parapet of the entry feature will increase from 25' to 28'-7" and incorporates high-end, decorative fiber cement board which complements the existing brick of the building.

The design has been revised from the original submittal to meet the UDC requests in the following way:

- Addressed the comments related to mass/proportions of EIFS area, including minimizing the EIFS and signage area to be more in proportion of the base of the building, including bringing down the parapet height.
- A cornice was added to maintain some additional height of the parapet but allow for the height limit of the sign to stay within proportions of the overall signage area.
- The façade and entrance were upgraded with the added cornice, decorative reveals in the EIFS, and added awnings. Additional glazing has been incorporated into the front façade as well.
- The landscaping plan and schedule have been updated, including replacing the callery pear and providing concrete bike path as opposed to the crushed granite shown previously.

Thank you for the opportunity to present this project to the City of Madison.

Sincerely,
