**Subject:** Waubesa Street Project

The BPW approved the project and assessments but referred the geometry for the bike path and driveway intersection with Waubesa Street to the December 5 BPW meeting. Traffic Engineering should attend the BPW meeting if at all possible and we should be prepared to defend the geometric design. Mike Rewey believes the impact to the bike path is too great. Feels we should install stop signs and leave the existing street where it is.

Tony, please set up a meeting with TE for sometime next week.
