My name is Antone Kucera. My wife, Carolyn, and I have lived at 414 Virginia Terrace since December, 1970. We wish to register our opposition to the proposed 2 hour parking change on Virginia Terrace for the following reasons:

- the residents who initiated the petition did so on a selective basis; we were never allowed to voice a preference
- Virginia Terrace has had a successful block party tradition since 1926 where neighbors work together to discuss and resolve issues; the method used to selectively circulate the petition is a sad departure from this tradition
- the planned Clean Streets/Clean Lakes change coming soon should allow the city the necessary access to clear snow and avoid the narrowing of the street in winter
- Bill Putnam's "options" piece correctly points out that Virginia Terrace narrows slightly where Rugby Row intersects Virginia Terrace; a small no-parking zone in this spot could assist school busses and emergency vehicles
- Its clear that West High School will never solve its parking problem but the kids who drive MUST have some place to park; most of them are delightful to meet and know
- better city coordination of street sweepers, garbage trucks, recycling trucks, and leaf pick up would also help; trying to do it all on a day after students have parked is quite a sight to behold.

Thank you for your consideration.

Sirs.....I'm against the 2 hour parking proposal. Seems like overkill. Maybe two hour parking on one side would be better. Either way the tightness issue seems to be more of an issue down by the stop sign. It never really affected me.....R Cross, 441 Virginia Terrace.

I am against 2 hour parking for multiple reasons, which I will not go into.

I will be very disappointed if the commission chooses to enforce this given the close number of households for and against 2 hour parking.

I hope to make it to the meeting, but in case my work schedule does not allow for this, I wanted to voice my opinion via email.

Thank you for all of your efforts in helping our block work thru this issue.
