Subject: 10/22/25 TC Meeting 13171 Pontiac Recon

See attached for our supporting documents and see below for the project summary. Let me know if you need anything else for the Transportation Commission meeting on 10/22.

This project is a rural-to-urban reconstruction of a residential street and three adjoining cul de sacs in the crook of Midvale Road, the Beltline, and the Southwest Path: Pontiac Trail from Hammersly Road to Mohican Pass, Boston Court, Nokomis Court, and Rosewood Circle. We have developed two design options which we presented to the public, requesting input on whether the street should have little to no parking or be a yield street with parking on one side.
