Subject: Chris Farley House

Hi Heather. This email conveys my unequivocal support for the Chris Farley House proposal, legislation 54131, which is item 2 on the Plan Commission 1/28 agenda. The applicant has hit all the marks. The existing facility is very well run and positively viewed by the neighborhood. The applicant has worked extensively with neighbors and BCNA, which is supportive. The building seems to be an effective and reasonably attractive transition between Park street and the adjoining neighborhood. Please pass this on to the Commission. Thank you
