

EXHIBIT A: The Plan Commission erred in its decision to grant the Conditional Dog Day Care Approval since there was an insufficient factual and legal basis for its decision, and for the reasons and legal basis as set forth below.

1. The record on this appeal includes all the files, records and proceedings of the Plan Commission including without limitation all the written submissions of affected property owners opposing the requested conditional use and the oral testimony of owners given during the virtual meeting on August 7, 2023, together with the additional materials submitted with this Notice of Appeal.
2. Section 28.183 (6)(a) of the Madison City Ordinances requires that:

“No application for a conditional use shall be granted by the Plan Commission unless it finds that all of the following conditions are present: 1. The establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety or general welfare. (2) The City is able to provide municipal services to the property where the conditional use is proposed, given due consideration of the cost of providing those services. (3) The uses, values and enjoyment of other property in the neighborhood for purposes already established will not be substantially impaired or diminished in any foreseeable manner.

3. Based on the substantial and uncontested evidence submitted by affected property owners to the Plan Commission none of conditions required in Section 28.183(6)(a) were met and the Plan Commission erred in ruling otherwise. Additionally the property owners state:

(a) There was no basis for the Plan Commission to rule on public health, safety or general welfare of the neighborhood because the Fire Department has not considered those issues due to an incomplete application and lack of clarity of submitted plans as noted in Lisa McNabola’s August 11, 2023 letter.

(b) The 3 other dog day care facilities located in a mixed/use property and cited at the hearing as providing a precedent for approval of this location are not valid comparisons because one is located in a strip mall with only adjacent commercial renters; another has no residential ownership units above the dog care; and the third is in a new building being offered only to renters and advertised as providing dog care to potential owners in promoting the building. In contrast, Junction Point has been in ownership since 2005 (a clearly established use), and has never been advertised as providing dog day care to the owners.

(c) A licensed real estate broker provided unrebutted testimony that the values of the ownership units will be diminished by this dog day care use and will result in significant losses to the owners.

(d) Over 100 adversely affected property owners oppose this proposed dog day care use and in their submissions clearly described how their use and enjoyment of their properties will be substantially impaired that include the issues of noise/barking, disruption of use of their properties, odors, dog waste, lack of hygiene, dog bites, lack of dog runs, lack of exercise area in the applicant’s leased space and instead the applicant’s intended use of public parking spaces and privately owned yards for dog urination and pooping, etc

4. Section 28.151 of the Madison City Ordinances requires that :

Animal Day Care. Applicants shall submit at the time of permit application written operating procedures. Such procedures, which shall be followed for the life of the business, must address

the identification and correction of animal behavior that impacts surrounding uses, including excessive barking.

Here applicant has not filed a complete operating procedure (as noted in Lisa McNabola's August 11, 2023 letter) and applicant has failed to comply with this requirement. This is another ground that the Plan Commission erred in its decision.

5.The property owners submitting this Notice of Appeal welcome the opportunity to discuss their serious concerns with the Common Council members.
