RE: Letter of Intent for 4602 Cottage Grove Road – The Ace Apartments

Dear Members of the Urban Design Commission and the Plan Commission:

Thank you for taking the time to review the proposed project for 4602 Cottage Grove Road. We understand that Cottage Grove Road is an important East-West thoroughfare for Madison and that this site is an important element of the Acewood Activity Center recommendations. We have taken great care in the design of the building so that it delivers on the land use and urban design goals promoted in the Cottage Grove Road Activity Centers Plan.

The project will be developed within the existing zoning, Commercial Corridor Transitional (CC-T), and will require a conditional use permit for more than 24 dwelling units in a mixed-use building.

Existing Conditions

The project site is located on the corner of Acewood Boulevard and Cottage Grove Road. It is currently home to a long vacant Sentry store surrounded by parking lot. A senior housing development (built using Section 42 Tax Credits but now market rate) sits to the north and an aging suburban commercial center to the east.

Project Description

The project consists of 70 apartment units, a mix of 1, 2, 3 and 4-bedrooms. 65 units will be in the principal building that fronts on Cottage Grove Road and Acewood Avenue. The remaining five units will come in the form of townhouses near the rear of the property. The project will have 55 underground parking spaces, 36 surface parking spaces, five townhouse garages, and five townhouse driveway stalls for a total of 90 spaces. The site will include one commercial space with ~10,000 ft². The site will also include 93 bicycle parking spaces, a community room, indoor and outdoor play areas, and tenant gardening space.

Lot Size

82,493 SF/1.894 acre

Lot Coverage

Building footprint: 28,208 SF

Impervious area: 33,270 SF

Pervious area: 21,001 SF

Total Lot area: 82,479 SF

Useable Open Space

Useable open area provided: 23,258 SF

Useable open area required: 18,880 SF

Stormwater Management

The project involves the redevelopment of the existing site. The City of Madison requires that proposed stormwater management practices must reduce the total suspended solids load by 60% for redevelopment, as compared to no controls. The proposed stormwater management facility will meet these requirements through the implementation of permeable pavers and bioretention basins integrated into the site design.

Public Subsidy

The project has received a combination of HOME and City of Madison Affordable Housing Program funds totaling \$1.1 million.

Sustainability

This project includes a variety of sustainable features, including:

- Compact mixed-use redevelopment
- Sustainable native plantings
- Multiple transit options
- Ample bicycle parking for visitors and residents
- Recycling for residents
- Construction recycling program
- Continuous insulation
- Energy Star appliances
- High efficiency, low flow plumbing fixtures
- Efficient lighting systems
- Low-E glazing
- Permeable pavers for stormwater infiltration
- Stormwater bioswale

Neighborhood Input

Three neighborhood meetings have been held: the first on July 26 2018; the second on September 17, 2018; the third on August 20, 2019. All were well attended from both the Elvjehem and Rolling Meadows neighborhood associations. The input gathered has been incorporated into the project where possible.

Relevant Planning Documents

The project is consistent with vision, goals, and strategies outlined in the recently adopted comprehensive plan, Imagine Madison. Specifically, the project directly addresses the following:

Strategy 3: Increase the amount of available housing

- Support new housing opportunities by prioritizing planning efforts to transition underutilized, automobile-dominated commercial areas into complete neighborhoods and mixed-use Activity Centers.

Strategy 4: Integrate lower priced housing, including subsidized housing, into complete neighborhoods.

- Support the distribution of affordable housing throughout the city.

Land Use: Neighborhood Mixed Use (NMU)

- Node or corridor containing housing, shopping, and services that generally serves surrounding neighborhoods (2-4 stories; up to 70 du/acre).

The project is also consistent with the goals and objectives included in the Cottage Grove Road Activity Centers Plan including:

Land Use and Urban Design Goal #1: Improve stability, cohesiveness, and relationship between commercial centers and residential areas.

- Incorporate affordable, quality housing into new development that is close to employment centers.
- Look for opportunities to include 2-3 story apartment, town homes and housing that meet the needs of the “missing middle.”

Land Use and Urban Design Goal #2: Ensure new infill mixed use, housing, or commercial development incorporate traditional neighborhood design elements.

- Encourage mixed-use and multi-family residential development of 2-4 stories where appropriate to anchor activity centers.
- Buildings should front on the street with parking behind or to the side of buildings.

Furthermore, the project responds directly to the plan’s recommendations for this specific site which calls for multifamily housing or mixed-use (office).

Maintenance Plan

The project will be professionally managed by ACC Management Group, Inc. ACC currently operates over 50 communities and 3000 apartments throughout Wisconsin's major markets and Illinois including the Fox Valley, Milwaukee, Madison, and Northern Illinois. Headquartered in Oshkosh, WI, ACC's exceptional team of multi-family leaders has a proven track record of excellence in management of luxury apartments, condominium associations, and affordable housing in various state and federal programs including Section 42 Tax Credit, Section 8, and Section 515.

Project Schedule

Movin’ Out and Commonwealth anticipate beginning construction in Spring of 2020 with a twelve to fourteen-month construction period.

We look forward to working with city staff, Plan Commission, and Urban Design Commission members on the review and approval of this important project.

Sincerely,

Chris Jaye
