

TPPB Public Comment – Received 3-14-22  
Item #3 – File #69989

Dear Board Members,

It has come to my attention that you intend to vote on the Vision Zero Action Plan at your meeting tonight. While there are many good things in this plan, I feel that it is much too broad. Why would you spend money to put curbs and sidewalks in low impact neighborhoods like Indian Hills, Crestwood, Sunset Hills (just to name a few) thus destroying the natural beauty and ambience so cherished by residents of these neighborhoods. Please take a step back and address only the most important pieces of the Vision Zero Action Plan to promote the safety of our city. Let's not fix what does not need fixing!

Sincerely,

Barbara J. Roeber
