	<p>This project seeks to meet the needs of people in the community who are experiencing homelessness and who are unsheltered. The challenges around unsheltered homelessness in Madison are not new but, like in communities around the country, they have been made worse by the COVID-19 pandemic. One of the issues the City is struggling with is a growing reluctance to use group shelter settings, in part, for fear of exposure to COVID. As a result, more and more people experiencing homelessness are</p>

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Funds are intended to support one or more strategies for homeless persons who are living outdoors. The funds could be used for such things as acquiring property to support an encampment, installing basic services like running water, bathrooms or electricity, establishing “tiny homes” or similar structures for use by campers, funding emergency hotel shelter and supportive services, and paying for on-site staff to support and monitor an encampment site.
Brief description of recipient’s approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Agencies work with an unhoused population that has been impacted by COVID-19. Agencies provide a variety of supports including housing and behavioral health services, emergency hotel room stays, and tiny houses.

**Project Name: Purpose-Built Men's Shelter**

Project Identification Number	13346
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.16-Long-Term Housing Security: Services for Unhoused persons
Status To Completion	Not Started
Adopted Budget	\$2,000,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$0.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>This project will provide funds to support the establishment of a permanent facility providing emergency shelter and supportive services to men in our community experiencing homelessness. This need is a direct consequence of the COVID-19 pandemic, in that the pandemic forced the closure of the previous men's shelter because it could not safely serve guests due to space limitations and corresponding public health risks. Since March of 2020, other City-owned buildings have been used as temporary shelter spaces but are needed for their intended uses.</p> <p>Funds provided will support costs associated with the planned acquisition of property and the renovation/construction of a structure to house the shelter. The selection of a site, and the design and construction of a facility, are subject to approval by the Madison Common Council. A site recommendation, and authorization to purchase, is anticipated by the end of September.</p>

**Project Name: Occupy Madison (OM) Solar Project**

Project Identification Number	13983
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.16-Long-Term Housing Security: Services for Unhoused persons
Status To Completion	Not Started
Adopted Budget	\$150,000.00

Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$0.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>The issue this project seeks to address is meeting the needs of people in the community who are experiencing homelessness by supporting Occupy Madison's tiny house village. Occupy Madison operating costs range from \$60,000-\$80,000 a year. The biggest burden of operating both sites is the cost of electricity, as utilities for all of the tiny houses are connected to electric. Installing solar at both locations would help reduce operating expenses significantly. Currently, the OM Village on North Third Street relies on a 14KW system and the OM Village on Aberg uses a 28KW system. This is the maximum amount of energy production possible given space limitations but capacity could be increased with installation of decentralized panels on each home. OM officials suggest placing solar panels on centralized/community properties rather than each house. These systems could produce 50,000 kwh of power each year and offset 45,000 lbs of CO2 per year.</p> <p>Funds will be used to purchase solar panels and pay for installation at OM villages.</p> <p>Funds will be disbursed through a sole source grant to Occupy Madison (OM). OM is the operator of the tiny house villages, so a sole source process is most appropriate process for disbursing funds. The City is currently working with OM to develop a plan and timeline for this project.</p>

**Project Name: Naturally Occurring Affordable Housing (NOAH) Energy Efficiency Program**

Project Identification Number	13988
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.18-Housing Support: Other Housing Assistance
Status To Completion	Not Started
Adopted Budget	\$250,000.00

Program Income Expended	\$0.00
Total Cumulative Obligations	\$0.00
Total Cumulative Expenditures	\$0.00

Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>As part of a broader strategy to mitigate conditions that contribute to youth violence, this proposal expands youth employment opportunities for young people. COVID-19 has deprived youth of many traditional outlets for inter-personal contacts and social interactions, including those that come through employment. Social isolation has exacerbated mental health concerns such as anxiety and depression. The City recognizes that reduced employment opportunities have particularly affected low-income youth and youth of color who, even under normal circumstances, often lack access to available jobs.</p> <p>Funding will provide contracted agencies the means to expand youth employment opportunities through the summer and fall. Funding will be allocated based upon expansion proposals submitted under a competitive RFP process.</p>

Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	COVID-19 negatively impacted the job market and made it difficult for youth and in particular low-income and youth of color to find jobs. In expanding training and employment opportunities for youth, agencies can target and provide work experiences to youth and in particular low-income and youth of color.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	COVID-19 negatively impacted employment opportunities for youth. In providing employment and training opportunities to youth agencies are assisting youth in re-engaging in the workforce and receiving a wage. These youth wages often contribute positively to the entire household income.

**Project Name: Summer Youth Reengagement – Summer 2021**

Project Identification Number	13974
Project Expenditure Category	1-Public Health
Project Expenditure Subcategory	1.11-Community Violence Interventions

Total Cumulative Expenditures	\$11,875.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>With the loosening of public health restrictions around COVID-19, this proposal addresses the lack of accessible, drop-in summer activities that help promote social-emotional learning development and re-engagement among youth. Virtual engagement and current resources do not sufficiently address youth's day-to-day social and emotional needs. This proposal takes advantage of Madison parks as safe venues within which to host positive activities and promote healthy social interactions.</p> <p>Funding will support structured drop-in summer activities for Madison youth in City parks, and promote social-emotional development and reengagement. Funding</p>

	will be provided to the City's Parks Division to help offset costs incurred for equipment and supplies at park venues.

Total Cumulative Obligations	\$0.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>The project addresses the need to support programming, services and outreach for persons in the community who are undocumented. The pandemic has had a profound impact on undocumented residents particularly around employment and housing. These residents are not eligible, in some cases, to receive direct assistance provided by Federal and State governments, and have been reluctant or unable, in others, to access resources for which they are eligible.</p> <p>Funding will support community partners and provide the means to deliver direct assistance to undocumented individuals and families as they cope with the consequences of COVID-19. Funds will be allocated to agencies with established relationships with affected communities using a competitive application process. The anticipated contract start date will be March 15, 2022</p>

Project Description	<p>CARES, a novel program housed within the Madison Fire Department and supported by a staff member within PHMDC to provide project coordination, seeks to provide an alternative response to mental health and behavioral health calls for service. Currently these calls are routed to law enforcement services. This pilot program intends to route these calls for service to a response team made up a community paramedic and a mental health specialist. This proposal will use funding to support the development of a CARES specific service in the PHMDC electronic health record system and will support external evaluation for the project.</p> <p>With the CSLFRF funding we are creating a service line within PHMDC's electronic health record system in order to track client encounters with the program. This will aid the pilot project in identifying trends, support quality and service improvements and provide a consistent platform for all partners to input data on. We are currently working with PHMDC's electronic health record vendor to better understand timeline and needs for implementing the service line and expending the funds. The addition of this service line is classified as a purchased service and will be sole sourced.</p>

	<p>COVID-19 has and will continue to have a devastating impact on small businesses and our neighborhood business districts who supports these small businesses. Many of these organizations went above and beyond to help our community and businesses during the pandemic by assisting the community with immediate needs, helping small businesses access financial support, taking steps to educate and assist businesses in reopening, etc. Neighborhood Business District Support will help these organizations</p>

Project Description	continue their important work by building their capacity to assist small businesses as they recover from the pandemic. It is also our goal to help support organizations run by or serving historically disadvantage individuals that have not been fully active within some of these neighborhood districts in the past. Funds can be used to support neighborhood business districts based on their needs, and could include grants for programming/marketing, organizational support, and reimbursement for City street closure fees.

Project Description	The City of Madison recognizes the historic and current inequities in funding and support for small businesses owned by people of color and other underrepresented groups. COVID-19 has exacerbated these inequities and businesses are still trying to recover and rebuild. The Small Business Equity & Recovery (SBER) Program provides financial assistance to small businesses and organizations or programs that support small businesses.

**Project Name: Retail Building Improvement Grant Program**

Project Identification Number	13984
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.31-Rehabilitation of Commercial Properties or Other Improvements
Status To Completion	Not Started
Adopted Budget	\$500,000.00

Project Description	As the City of Madison, residents, business owners and development community continue to rebuild our economy, we recognize the need to invest in brick-and-mortar businesses. COVID-19 and e-commerce has created new challenges for these businesses. The Retail Building Improvement Grant program can have a significant effect on the attractiveness and marketability by assisting businesses with the capital costs associated with renovating the interior and exterior of retail spaces.

	The Madison Public Market was originally scheduled to be under construction in Fall of 2020. COVID-19 and other

Project Description	<p>related delays place the start of construction now in Fall of 2022. The Madison Public Market Foundation has been a key partner in the planning of the Public Market and they will be the non-profit entity that will run the Public Market. To date, the Foundation has assisted with business planning, fundraising, design, the MarketReady Program, and community engagement. Around the time that construction begins, the Foundation will hire a full time Executive Director in preparation for running the Market once it opens about a year later. The two year delay in construction has negatively impacted the operating finances of the Foundation. Simply put, the Foundation did not budget for ongoing fundraising and project management contracts for an additional two years. Further, the Foundation has devoted a portion of its operating reserves for consultant support of the project's EDA Grant application. Most of the financial support pledged to the Foundation can only be used for construction, not operations. This funding will assist the Foundation with operations through the start of construction, including hiring an Executive Director.</p>

Project Description	<p>COVID-19 will have longer-term impact on retail brick-and-mortar shopping. Due to the pandemic, we have seen historically high vacancies in our downtown State Street storefronts. In addition, many of these businesses have not recovered from damages caused during the civil unrest. The Downtown Vacant Storefront Art Program can help support local artists who lost income due to COVID-19 and help make downtown more vibrant and inviting for our community.</p> <p>Funds will likely be used to hire a program coordinator, pay artists, and other miscellaneous expenses. Application process consistent with other art programming processes.</p> <p>We are working with colleagues throughout city government, the creative economy and the downtown business community to refine the program.</p>

# Report

## Revenue Replacement

Is your jurisdiction electing to use the standard allowance of up to \$10 million, not to exceed your total award allocation, for identifying revenue loss?	No
---	----

### 2020

Base Year General Revenue	\$482,376,709.00
Year End Date	12/31/2020
Growth Adjustment Used	5.500%
Actual General Revenue	\$464,396,701.00
Estimated Revenue Loss Due to Covid-19 Public Health Emergency	\$44,649,062.00
Were Fiscal Recovery Funds used to make a deposit into a pension fund?	No
Please provide an explanation of how revenue replacement funds were allocated to government services	<p>The City of Madison will be allocating revenue replacement funds to government services, primarily wages for public health emergency workers. These services being covered by SLFRF Funds will enable the City to maintain a balanced general fund budget and to stabilize the Monona Terrace Community and Convention Center and the room tax fund. Using the prescribed formula, it would be allowable to allocate the full \$47.2 million on revenue replacement. However, the City has decided to allocate approx. \$24.4 million to government services.</p>

Please provide an explanation of how revenue replacement funds were allocated to government services	The City of Madison will be allocating revenue replacement funds to government services, primarily wages for public health emergency workers. These services being covered by SLFRF Funds will enable the City to maintain a balanced general fund budget and to stabilize the Monona Terrace Community and Convention Center and the room tax fund. Using the prescribed formula, it would be allowable to allocate the full \$47.2 million on revenue replacement. However, the City has decided to allocate approx. \$24.4 million to government services.

**Ineligible Activities: Tax Offset Provision**
