

Possible Transit Route to Serve Owl Creek Neighborhood (See accompanying map)

- Route would be anchored at the East Transfer Point to provide opportunities for connections to MATC, East Towne, Woodman's, Post Office, downtown Madison, etc.
- Route would operate past Sennett Middle School and LaFollette High School in both directions. This would allow some reduction in service on supplemental school day routes. It would also provide students with transit service for after-school activities.
- Would operate approximately 6:30 a.m. – 10:30 p.m. on weekdays (no weekend service under initial scenario).
- Schedule would have half-hour frequencies during peak periods (6:30 a.m. – 9:00 a.m. and 3:30 p.m. – 6:00 p.m.), with hourly service during the middle of the day and after 6:30 p.m.
- Annual net cost to operate this route would be approximately \$350,000.
