

PROPOSED 2016 MADISON WATER UTILITY CONTRACT NO. 7729 (MUNIS PROJECT 86100)

REPAINT MADISON WATER UTILITY RESERVOIRS 9, 115, AND 315

Reservoir 315:

0.5MG elevated tank, Cross Hill Dr

Reservoir 9:

3MG standpipe, Spaanem Ave

Reservoir 115:

3MG standpipe, Bunker Hill Ln

Project Engineer:

Adam Wiederhoeft, PE – Madison Water Utility - Phone: (608) 266-9121 - Email: awiederhoeft@madisonwater.org
Dixon Engineering, Inc. is providing professional engineering, design and construction services on this project.

Description:

The proposed project consists of repainting three existing steel water tanks (Reservoirs 9, 115 & 315). The scope also includes miscellaneous maintenance repairs and improvements to accommodate communication equipment and current code regulations.

Cost:

The project estimate is \$1.89M, funded through the Madison Water Utility Operating Budget (facility maintenance project). The project will be bid with three sequencing options to offer scheduling flexibility and cost saving opportunities to prospective bidders.

Assessments:

No assessments are associated with this project.

Schedule:

5/20/16: First Ad

6/10/16: Bids due/opened

The project is anticipated to begin in August 2016 and be completed in June 2017.

Alder Districts:

AD 15 - Alder David Ahrens

AD 17 - Alder Samba Baldeh

Additional Information/Misc:

This project is being scheduled in coordination with the upcoming City of Madison TE/Dane Co communication equipment relocations and improvements located at these reservoirs.
